IPM statement

It is the goal of Colusa Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Reduce and control pest prevention by proper sanitation methods and the use of mechanical and physical control methods before using any pesticides. Continue to monitor for problem areas and reacting in a timely manner.

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Kitchens and food areas checked weekly with sticky monitoring. All other areas routinely monitored by visual inspections and reported as needed.
