I. INTRODUCTION

A. Purpose of the Plan

The purpose of the Colusa Unified School District Emergency Operations Plan (District EOP) is to identify and respond to incidents by outlining the responsibilities and duties of Colusa Unified School District and its employees. Developing, maintaining, and exercising the plan empowers employees in an incident to act quickly and knowledgeably. In addition, the plan educates staff, faculty, students, and other key stakeholders on their roles and responsibilities before, during, and after an incident. This plan provides parents and other members of the community with assurances that Colusa Unified School District has established guidelines and procedures to respond to incidents/hazards in an effective way.

The developed guidelines and procedures for dealing with existing and potential student and school incidents are defined in the plan below. The basic plan and the functional and hazard-specific appendixes outline an organized, systematic method to mitigate, prevent, prepare for, respond to, and recover from incidents. Faculty and staff have been trained to assess the seriousness of incidents and respond according to these established procedures and guidelines. Colusa Unified School District regularly schedules in-service training for faculty and staff.

Lastly, developing, maintaining, and exercising the School EOP increases Colusa School’s legal protection. Schools without established incident management procedures have been found liable for their absence. While no set of policies rules out the potential for legal problems, establishing procedures and guidelines on the best professional practices provides a margin of protection against liability.

B. Scope of the Plan

The Colusa Unified School District Emergency Operations Plan outlines the expectations of staff/faculty; roles and responsibilities; direction and control systems; internal and external communications plans; training and sustainability plans; authority and references as defined by local, State, and Federal government mandates; common and specialized procedures; and specific hazard vulnerabilities and responses/recovery.
1. Definitions

**Incident:** An incident is an occurrence – natural, technological, or human-caused – that requires a response to protect life or property. The principal/building administrator shall have the authority to determine when an incident has occurred and to implement the procedures within this Emergency Operations Plan.

**Hazards:** Hazards shall include situations involving threats of harm to students, personnel, and/or facilities. Hazards include but are not limited to natural, technological, and human-caused incidents. Hazards may require an interagency response involving law enforcement and/or emergency services agencies depending on the size and scope of the incident.

2. School Board Policy Statement

The Colusa Unified School District Emergency Operations Plan operates within the framework of the Colusa Unified School Board policy.

C. Situation Overview/Hazard Analysis Summary

1. School Population

   a. General Population

   Colusa Unified’s current enrollment is approximately 1450 students who attend on three sites in and around the town of Colusa. These students are supported by a committed staff and faculty consisting of: (approximately)
   - 80 Teachers and specialists
   - 6 Administrators
   - 8 District Office/support staff
   - 20 Instructional Assistants
   - 11 Cafeteria staff
   - 15 Maintenance and custodial staff

   b. Special Needs Population

   Colusa Unified School District is committed to the safe evacuation and transport of students and staff with special needs. The special needs population includes students/staff with:
   - Limited English proficiency,
   - Blindness or visual disabilities,
   - Cognitive or emotional disabilities,
   - Deafness or hearing loss,
Colusa Unified School District Emergency Operations Plan

- Mobility/physical disabilities (permanent and temporary), and
- Medically fragile health (including asthma and severe allergies).

The District’s current enrollment of students with special needs is approximately 190; however, this number will fluctuate. Students and/or staff may require additional assistance if they are temporarily on crutches, wearing casts, etc.

Classrooms containing students and staff who require additional assistance during an incident will be noted by school safety plan. Staff members who are trained will be assigned to assist the special needs population during drills, exercises, and incidents.

2. Building Information

Colusa Unified School District facilities are located at:
Burchfield Primary School – 400 Fremont Street
Egling Middle School – 813 Webster Street
Colusa High & Colusa Alternative High School – 901 Colus Avenue
District Office and Colusa Alternative Home School – 745 Tenth Street

A map of the buildings annotated with evacuation routes are include in the Building Comprehensive Safety Plan sections of this Plan. All staff members are required to know these locations as well as how to operate the utility shutoffs.

3. Hazard Analysis Summary

Colusa Unified School District is exposed to many hazards, all of which have the potential for disrupting the school community, causing casualties, and damaging or destroying public or private property.

In December 2016, school staff members completed a thorough review of known hazards to identify any circumstances in the schools or near the campuses which may present unique problems or potential risk to people or property. The interior and exterior portions of all school buildings and school grounds have been assessed for potential hazards that may impact the site, the staff, and the students. Identified hazards have been assessed by risk and likelihood and ranked accordingly.

The table on the following page briefly discusses Colusa Unified’s high-priority hazards including flood, severe storm, fire, chemical, intruder, earthquakes, and terrorism.
### Potential Hazards

<table>
<thead>
<tr>
<th>Hazard</th>
<th>Description</th>
</tr>
</thead>
</table>
| Flood        | Flooding is a natural feature of the climate, topography, and hydrology of Colusa and its surrounding areas. Flooding is possible throughout the winter and early spring due to heavy rainfall, melting snow, and potential levee failure.  
  The Sacramento River, north of Colusa, has the potential to flood periodically. Long periods of rainfall and mild temperatures are normally the cause. Colusa Unified School District is located in a flood plain, making it vulnerable to flood damage. Colusa Schools have not been severely impacted in the recent past due to an ongoing drought and levee system improvements. |
| Severe Storm | Colusa and its surrounding areas are vulnerable to severe local storms. Violent thunderstorms and even tornadoes have occurred in the region. The effects are generally transportation problems, mild to moderate property damage, and loss of utilities, but can vary with the intensity of the storm. |
| Fire         | Wildfire hazards are generally low in this region as the climate, terrain and urbanization have mitigated the circumstances which cause wildfires to spread swiftly.  
  However, with its many farms and ranches, Colusa County remains susceptible to large cropland, structure and machinery fires. The frequency of such fires is very low, but they do occur. |
| Chemical Spills & Gas Leaks | Hazardous chemicals are used for a variety of industrial and agricultural purposes and are regularly transported through, in and around Colusa. Currently, only small amounts of pesticides, fuels and other hazardous chemicals are used and stored on school grounds. However, large amounts of farm/industrial chemicals are present locally and spill / release hazards are ever-present.  
  Natural gas is the fuel source for heating district buildings and hot water production. The leaks develop from equipment aging or damage. Gas leaks present both fire and explosion hazards. |
| Intruder     | While a hostile intruder incident has never occurred in a Colusa Unified school, Colusa Schools are vulnerable to intruders.                                                                                                                                 |
| Earthquake   | Significantly destructive earthquakes are rare in this region of the state. However, ground shaking can be strong enough to cause objects to fall from shelves.                                                                                                                                 |
| Terrorism    | Colusa Schools, like other public institutions, are vulnerable to terrorist activity.                                                                                                                                 |
4. Preparedness, Prevention, and Mitigation Overview

Preparedness is achieved and maintained through a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action. Ongoing preparedness efforts require coordination among all those involved in emergency management and incident response activities. Colusa Unified School District fosters preparedness at all levels including students, parents, teachers, and staff. Examples of preparedness actions include maintaining this plan, conducting training, planning and implementing drills and exercises, etc.

Prevention includes actions to avoid an incident or to intervene to stop an incident from occurring. Colusa Unified School District is committed to taking proactive prevention measures whenever possible to protect the safety and security of students and staff. Our policies include anti-bullying and other pro-social actions, which support the notion that our schools are safe havens for everyone. Recent upgrades to communication systems offer greater protection of our students. In addition, Colusa Unified School District requires all adults to display identification badges.

Mitigation includes activities to reduce the loss of life and property from natural and/or human-caused disasters by avoiding or lessening the impact of a disaster and providing value to the public by creating safer communities. Colusa Unified School District has taken action to reduce or eliminate the adverse effects of natural, technological, and human-caused hazards on people and property.

For example, of the many hazards that can endanger a school facility and its service to the community, the most prevalent is fire. Colusa Unified School District structures were built in accordance with State building codes, in the form of approved materials, fire-resistant assemblies, exiting requirements, the width and design of stairs, the dimensions of corridors, fire suppression systems, and many other standards. However, those codes have changed over the years and CUSD is constantly upgrading systems to meet the new codes.

D. Planning Assumptions and Limitations

1. Planning Assumptions

Stating the planning assumptions allows Colusa Unified School District to
deviate from the plan if certain assumptions prove not to be true during operations. The School EOP assumes:

The school community will continue to be exposed and subject to hazards and incidents described in the Hazard Analysis Summary, as well as lesser hazards and others that may develop in the future.

A major disaster could occur at any time, and at any place. In many cases, dissemination of warning to the public and implementation of increased readiness measures may be possible; however, some emergency situations occur with little or no warning.

A single site incident (e.g., fire, gas main breakage) could occur at any time without warning and the employees of the school affected cannot, and should not, wait for direction from local response agencies. Action is required immediately to save lives and protect school property.

Following a major or catastrophic incident, the school may have to rely on its own resources to be self-sustaining for up to 72 hours.

There may be a number of injuries of varying degrees of seriousness to faculty, staff, and/or students. Rapid and appropriate response will reduce the number and severity of injuries.

Outside assistance from local fire, law enforcement, and emergency managers will be available in most serious incidents. Because it takes time to request and dispatch external assistance, it is essential for the school to be prepared to carry out the initial incident response until responders arrive at the incident scene.

Proper prevention and mitigation actions, such as creating a positive school environment and conducting fire inspections, will prevent or reduce incident-related losses.

Maintaining the School EOP and providing frequent opportunities for stakeholders (staff, students, parents, first responders, etc.) to exercise the plan can improve the school’s readiness to respond to incidents.

A spirit of volunteerism among school employees, students, and families will result in their providing assistance and support to incident management efforts.
2. Limitations

It is the policy of Colusa Unified School District that no guarantee is implied by this plan of a perfect incident management system. As personnel and resources may be overwhelmed, Colusa Unified School District can only endeavor to make every reasonable effort to manage the situation, with the resources and information available at the time.
II. CONCEPT OF OPERATIONS

This plan is based upon the concept that the incident management functions that must be performed by the school generally parallel some of their routine day-to-day functions. To the extent possible, the same personnel and material resources used for day-to-day activities will be employed during incidents. Because personnel and equipment resources are limited, some routine functions that do not contribute directly to the incident may be suspended. The personnel, equipment, and supplies that would typically be required for those routine functions will be redirected to accomplish assigned incident management tasks.

A. National Incident Management System (NIMS)

The National Incident Management System (NIMS) is a set of principles that provides a systematic, proactive approach guiding government agencies at all levels, nongovernmental organizations, and the private sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life or property and harm to the environment. This system ensures that those involved in incident response/recovery understand what their roles are and have the tools they need to be effective.

According to Homeland Security Presidential Directive 5 and the U.S. Department of Education, school districts are among local agencies that must adopt NIMS if they receive Federal grant funds. As part of its NIMS implementation, Colusa Unified School District participates in the local government’s NIMS preparedness program and believes it is essential to ensure that response/recovery services are delivered to schools in a timely and effective manner.

Colusa Unified School District recognizes that staff and students will be first responders during an incident. Adopting NIMS enables staff and students to respond more effectively to an incident and enhances cooperation, coordination, and communication among school officials, first responders, and emergency managers.

Colusa Unified School District works with local government agencies to remain NIMS compliant. NIMS compliance for school districts includes completing the following:
Colusa Unified School District Emergency Operations Plan

- Adopt the use of the Incident Command System (ICS). All staff and students who assume roles described in this plan will receive ICS-100 training. ICS-100 is a Web-based course available free from the Federal Emergency Management Agency (FEMA) Emergency Management Institute.
- Complete NIMS awareness course IS-700 NIMS: An Introduction. IS-700 is a Web-based course available free from the Emergency Management Institute. All persons assuming roles described in the basic plan or appendixes will take the IS-700 course.
- Participate in local government’s NIMS preparedness program and incorporate the school plan into the community EOP.
- Train and exercise the plan. All staff and students are expected to participate in training and exercising the plan’s procedures and hazard-specific incident plans. The school is charged with ensuring that the training and equipment necessary for an appropriate response/recovery operation are in place.

B. Implementation of the Incident Command System (ICS)

In a major emergency or disaster, Colusa Unified School District facilities may be damaged or need to be evacuated, people may be injured, and/or other incident management activities may need to be initiated. These activities must be organized and coordinated to ensure efficient incident management. The Incident Command System (ICS) will be used to manage all incidents and major planned events. [Note: The ICS approach can be used in all phases of incident management, including pre-incident activities, response, and recovery.]

The Incident Commander at Colusa Unified School District will be delegated the authority to direct all incident activities within the school's jurisdiction. The Incident Commander will establish an incident command post (ICP) and provide an assessment of the situation to the principal or other officials, identify incident management resources required, and direct the on-scene incident management activities from the ICP. Incident commanders from outside Colusa Unified School District will form a joint command with CUSD Administration while operating on District Property. If no Incident Commander is present at the onset of the incident, the most qualified District Staff member will assume command until relieved by a qualified Incident Commander.
C. Initial Response

School personnel are usually first on the scene of an incident in a school setting. Staff and faculty are expected to take charge and manage the incident until it is resolved or command is transferred to someone more qualified and/or to an emergency responder agency with legal authority to assume responsibility. Staff will seek guidance and direction from local officials and seek technical assistance from State and Federal agencies and industry where appropriate.

The principal or his/her designee is responsible for activating the School EOP, including common and specialized procedures as well as hazard-specific incident plans. The principal or designee will assign an Incident Commander based who is most qualified for that type of incident.
III. ORGANIZATION ASSIGNMENT OF RESPONSIBILITIES

This section establishes the operational organization that will be relied on to manage the incident and includes:

- A list of the kinds of tasks to be performed by position and organization.
- An overview of who does what.

The principal and assistant principals are not able to manage all the aspects associated with an incident without assistance. The school relies on other key school personnel to perform tasks that will ensure the safety of students and staff during a crisis or critical incident. The Incident Command System (ICS) uses a team approach to manage incidents. It is difficult to form a team while a crisis or critical incident is unfolding. Roles should be pre-assigned based on training and qualifications. Each staff member and volunteer must be familiar with his or her role and responsibilities before an incident occurs.

School staff may be required to remain at school to assist in an incident. In the event that this School EOP is activated, staff will be assigned to serve within the Incident Command System based on their expertise and training and the needs of the incident.

A. Principal / Building Administrator

The principal may serve as the Incident Commander or delegate that authority to a qualified individual. At all times, the principal still retains the responsibility for the overall safety of students and staff. However, delegating the authority to manage the incident allows the principal to focus on policy-level activities and interfacing with other agencies and parents. The principal shall coordinate between the superintendent’s office and the Incident Commander.

B. Incident Commander

The Incident Commander responsibilities include:

- Assume overall direction of all incident management procedures based on actions and procedures outlined in this EOP.
- Take steps deemed necessary to ensure the safety of students, staff, and other individuals.
- Determine whether to implement incident management protocols (e.g.,
Colusa Unified School District Emergency Operations Plan

- Lockdown, Lock Out, Shelter in Place, Evacuate, etc.), as described more fully in the functional appendices in this document.
- Arrange for transfer of students, staff, and other individuals when safety is threatened by a disaster.
- Work with emergency services personnel. (Depending on the incident, community agencies such as law enforcement or fire department may have jurisdiction for investigations, rescue procedures, etc.)
- Keep the principal and other officials informed of the situation.

C. Teachers
Teachers shall be responsible for the supervision of students and shall remain with students until directed otherwise.

Responsibilities include:
- Supervise students under their charge.
- Take steps to ensure the safety of students, staff, and other individuals in the implementation of incident management protocols.
- Direct students in their charge to inside or outside assembly areas, in accordance with signals, warning, written notification, or intercom orders according to established incident management procedures.
- Give appropriate action commands during an incident.
- Take attendance when class relocates to an outside or inside assembly area or evacuates to another location.
- Report missing students to the Incident Commander or designee.
- Execute assignments as directed by the Incident Commander or ICS supervisor.
- Obtain first aid services for injured students from the school nurse or person trained in first aid. Arrange for first aid for those unable to be moved.
- Render first aid if necessary.

D. Instructional Assistants
Responsibilities include assisting teachers as directed.

E. Counselors, Social Workers, and Psychologists
Counselors, social workers, and psychologists provide assistance with the overall direction of the incident management procedures at the site.

Responsibilities may include:
- Take steps to ensure the safety of students, staff, and other
Colusa Unified School District Emergency Operations Plan

- Individuals in the implementation of incident management protocols.
- Direct students in their charge according to established incident management protocols.
- Render first aid if necessary.
- Assist in the transfer of students, staff, and other individuals when their safety is threatened by a disaster.
- Execute assignments as directed by the Incident Commander or ICS supervisor.

F. School Nurses/Health Assistants
Responsibilities include:
- Administer first aid or emergency treatment as needed.
- Supervise administration of first aid by those trained to provide it.
- Organize first aid and medical supplies.

G. Custodians/Maintenance Personnel
Responsibilities include:
- Survey and report building damage to the Incident Commander or Operations Section Chief.
- Control main shutoff valves for gas, water, and electricity and ensure that no hazard results from broken or downed lines.
- Provide damage control as needed.
- Assist in the conservation, use, and disbursement of supplies and equipment.
- Keep Incident Commander or designee informed of condition of school.

H. School Secretary / Office Staff
Responsibilities include:
- Answer phones and assist in receiving and providing consistent information to callers.
- Provide for the safety of essential school records and documents.
- Track expenditures and keep receipts for emergency supplies & materials.
- Execute assignments as directed by the Incident Commander or ICS supervisor.
- Provide assistance to the principal and Policy/Coordination Group.
- Monitor radio emergency broadcasts.
- Assist with health incidents as needed, acting as messengers, etc.

I. Food Service/Cafeteria Workers
Responsibilities include:
- Use, prepare, and serve food and water on a rationed basis whenever the feeding of students and staff becomes necessary.
during an incident.

- Execute assignments as directed by the Incident Commander or ICS supervisor.

### J. Bus Drivers
Responsibilities include:

- Supervise the care of students if disaster occurs while students are in the bus.
- Transfer students to new location when directed.
- Execute assignments as directed by the Incident Commander or ICS supervisor.
- Transport individuals in need of medical attention.

### K. Other Staff (e.g., Itinerant Staff, Substitute Teachers)
Responsibilities include reporting to the Incident Commander or ICS supervisor if requested or activated.

### L. Students
Responsibilities include:

- Cooperate during emergency drills and exercises, and during an incident.
- Learn to be responsible for themselves and others in an incident.
- Understand the importance of not being a bystander by reporting situations of concern.
- Develop an awareness of natural, technological, and human-caused hazards and associated prevention, preparedness, and mitigation measures.
- Take an active part in school incident response/recovery activities, as age appropriate.

### M. Parents/Guardians
Responsibilities include:

- Encourage and support school safety, violence prevention, and incident preparedness programs within the school.
- Participate in volunteer service projects for promoting school incident preparedness.
- Provide the school with requested information concerning the incident, early and late dismissals, and other related release information.
- Practice incident management preparedness in the home to reinforce school training and ensure family safety.
- Understanding their roles during a school emergency.
A. School Incident Command System (ICS)

To provide for the effective direction, control, and coordination of an incident, either single site or multi-incidents, the School EOP will be activated including the implementation of the Incident Command System (ICS).

The Incident Commander is delegated the authority to direct tactical on-scene operations until a coordinated incident management framework can be established with local authorities. The Policy Group is responsible for providing the Incident Commander with strategic guidance, information analysis, and needed resources.

Figure 1. Incident Management Team

The ICS is organized into the following functional areas:
1. **Incident Command:** Directs the incident management activities using strategic guidance provided by the Policy Group.

School-related responsibilities and duties include:
- Establish and manage the Command Post, establish the incident organization, and determine strategies to implement protocols and adapt as needed.
- Monitor incident safety conditions and develop measures for ensuring the safety of building occupants (including students, staff, volunteers, and responders).
- Coordinate media relations and information dissemination with the principal.
- Develop working knowledge of local/regional agencies, serve as the primary on-scene contact for outside agencies assigned to an incident, and assist in accessing services when the need arises.
- Document all activities.

2. **Operations Section:** Directs all tactical operations of an incident including implementation of response/recovery activities according to established incident management procedures and protocols, care of students, first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students to parents.

Specific responsibilities include:
- Analyze school staffing to develop a Parent-Student Reunification Plan, and implement an incident action plan.
- Monitor site utilities (i.e., electric, gas, water, heat/ventilation/air conditioning) and shut off only if danger exists or directed by Incident Commander, and assist in securing facility.
- Establish medical triage with staff trained in first aid and CPR, provide and oversee care given to injured persons, distribute supplies, and request additional supplies from the Logistics Section.
- Provide and access psychological first aid services for those in need, and access local/regional providers for ongoing crisis counseling for students, staff, and parents.
- Coordinate the rationed distribution of food and water, establish secondary toilet facilities in the event of water or plumbing failure, and request needed supplies from the Logistics Section.
- Document all activities.

As needed, the types of Strike Teams described in the following table may be established within the Operations Section.
## Table 2. Operations Section Teams

<table>
<thead>
<tr>
<th>Strike Team</th>
<th>Potential Responsibilities</th>
</tr>
</thead>
</table>
| **Search & Rescue Team** | Search & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Search & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them). Search and Rescue Teams are also responsible for:  
- Identifying and marking unsafe areas.  
- Conducting initial damage assessment.  
- Obtaining injury and missing student reports from teachers. |
| **First Aid Team**    | First Aid Teams provide triage, treatment, and psychological first aid services. First Aid Teams are responsible for:                                            
- Setting up first aid area for students.  
- Assessing and treating injuries.  
- Completing master injury report.  
Note: The Logistics Section provides care to responders (if needed). The Operations Section First Aid Team is dedicated to students or other disaster victims. |
| **Evacuation/ Shelter/Care Team** | Evacuation, shelter, and student care in an incident are among the most important tasks faced by schools. These tasks include student accounting, protection from weather providing for sanitation needs, and providing for food and water. The Evacuation/Shelter/Care Team is responsible for: 
- Accounting for the whereabouts of all students, staff, and volunteers.  
- Setting up a secure assembly area.  
- Managing sheltering and sanitation operations.  
- Managing student feeding and hydration.  
- Coordinating with the Student Release Team. |
3. **Planning Section:** Collects, evaluates, and disseminates information needed to measure the size, scope, and seriousness of an incident and to plan appropriate incident management activities.

Duties may include:

- Assist Incident Commander in the collection and evaluation of information about an incident as it develops (including site map and area map of related events), assist with ongoing planning efforts, and maintain incident time log.
- Document all activities.
4. **Logistics Section:** Supports incident management operations by securing and providing needed personnel, equipment, facilities, resources, and services required for incident resolution; coordinating personnel; assembling and deploying volunteer teams; and facilitating communication among incident responders. This function may involve a major role in an extended incident.

Additional responsibilities include:
- Establish and oversee communications center and activities during an incident (two-way radio, battery-powered radio, written updates, etc.), and develop telephone tree for after-hours communication.
- Establish and maintain school and classroom preparedness kits, coordinate access to and distribution of supplies during an incident, and monitor inventory of supplies and equipment.
- Document all activities.

5. **Finance / Administration Section:** Oversees all financial activities including purchasing necessary materials, tracking incident costs, arranging contracts for services, timekeeping for emergency responders, submitting documentation for reimbursement, and recovering school records following an incident.

Additional duties may include:
- Assume responsibility for overall documentation and recordkeeping activities;
  - when possible, photograph or videotape damage to property.
- Develop a system to monitor and track expenses and financial losses, and secure all records.

This section may not be established onsite at the incident. Rather, the school and school district management offices may assume responsibility for these functions.

**B. Coordination With Policy/Coordination Group**

In complex incidents a Policy/Coordination Group will be convened at the school district operations center. The role of the Policy/Coordination Group is to:
- Support the on-scene Incident Commander.
- Provide policy and strategic guidance.
- Help ensure that adequate resources are available.
- Identify and resolve issues common to all organizations.
- Keep elected officials and other executives informed of the situation and decisions.
C. Coordination with First Responders

An important component of the Colusa Unified School District EOP is a set of interagency agreements with various county agencies to aid timely communication. These agreements help coordinate services between the agencies and Colusa Schools.

Various agencies and services include county governmental agencies such as mental health, law enforcement, and fire departments. The agreements specify the type of communication and services provided by one agency to another. The agreements also make school personnel available beyond the school setting in an incident or traumatic event taking place in the community.

If a school incident is within the authorities of the first-responder community, command will be transferred upon the arrival of qualified first responders. A transfer of command briefing shall occur. The school Incident Commander may be integrated into the Incident Command structure or assume a role within a Unified Command structure.

E. Source and Use of Resources

Colusa Unified School District will use its own resources and equipment to respond to incidents until incident response personnel arrive. Parent volunteers and community members will be trained to assist if called upon and available after an incident occurs. The following organizations or agencies will be responsible for providing additional resources or assistance:

- First aid kit and sanitation supplies will be provided by: Local vendors
- Cots and bedding supplies will be provided by: Red Cross
- Food/water supplies will be provided by: CUSD NS and Local vendors
- Security will be provided by: Local Police & Sheriff’s Department
- Counseling services will be provided by: CUSD Staff & others as needed
V. COMMUNICATIONS

Communication is a critical part of incident management. This section outlines Colusa Unified’s communications plan and supports its mission to provide clear, effective internal and external communication between the school, staff, students, parents, responders, and media.

A. Internal Communications

1. Communication Between Staff/Faculty Members

Faculty and staff will be notified when an incident occurs and kept informed as additional information becomes available and as plans for management of the situation evolve. The following practices will be utilized to disseminate information internally when appropriate:

- **Telephone Tree:** A telephone tree is a simple, widely used system for notifying staff of an incident when they are not at school. The tree originates with the principal, who contacts the members of the Incident Management Team. Team members then in turn will contact groups of staff (teachers, administrators, and support staff).

- **Morning Faculty Meeting:** As appropriate, updated information about an incident will be presented at the morning faculty meeting. Any new procedures for the day will also be reviewed at this time.

- **End-of-Day Faculty Meeting:** As appropriate, updated information and a review of the day’s events will be presented at the end-of-day meeting. Staff will also have the opportunity to address any misinformation or rumors.

2. Communication With the School District Office

The Incident Commander will notify the principal of the school’s status / needs. The principal will notify the district office. The district office will notify the County Office of Education of the status of all district schools. He/she will designate staff member(s) to monitor all communications.

B. External Communications

Communicating with the larger school community begins before an incident occurs. In the event of an incident, parents, media, and first responders will require clear and concise messages from CUSD about the incident, what is
being done about it, and the safety of the children and staff.

1. Communication With Parents

Before an incident occurs, Colusa Unified School District will:
- Develop a relationship with parents so that they trust and know how to access alerts and incident information.
- Inform parents about the school’s Emergency Operations Plan, its purpose, and its objectives. Information will be included in the school newsletter and a presentation delivered at Back-to-School Night.
- Identify parents who are willing to volunteer in case of an incident, include them in preparation efforts, and include them in training.
- Be prepared with translation services for non-English-speaking families and students with limited English proficiency.

In the event of an incident, Colusa Unified School District will:
- Disseminate information via text messages, radio announcements, the District Web page, District Social media pages, and emails to inform parents about exactly what is known to have happened.
- Implement the plan to manage phone calls and parents who arrive at school.
- Describe how the school and school district are handling the situation.
- Provide information regarding possible reactions of their children and ways to talk with them.
- Provide a phone number, Web site address, or recorded hotline where parents can receive updated incident information.
- Inform parents and students when and where school will resume.

After an incident, Colusa Unified School District administrators will schedule and attend an open question-and-answer meeting for parents as soon as possible.

2. Communication with the Media

In the event of an incident, the Incident Commander will:
- Designate a Public Information Officer.
- Establish an off-campus briefing area for media representatives.
- Determine the need to establish or participate in a Joint Information Center.
- Coordinate messages with the principal and Policy Group.

All Colusa Unified School District employees are to refer all requests for information and questions to the designated spokesperson or Joint Information Center (if established). Templates for statements/press releases to the media, including standard procedures and protocols, have been developed and are
Media contacts at the major television, Internet, and radio stations are maintained by the principal’s executive assistant. In the case of an incident, these media contacts will broadcast Colusa Unified’s external communications plans, including the information hotline for parents and guardians.

3. Handling Rumors

In addressing rumors, the most effective strategy is to provide facts as soon as possible. To combat rumors, Colusa Unified School District will:

- Provide appropriate information to internal groups including administrators, teachers, students, custodians, secretaries, instructional assistants, cafeteria workers, and bus drivers. These people are primary sources of information and are likely to be contacted in their neighborhoods, at grocery stores, etc.
- Hold a faculty/staff meeting before staff members are allowed to go home so that what is (and is not) known can be clearly communicated.
- Designate and brief personnel answering calls to help control misinformation.
- Conduct briefings for community representatives directly associated with the school.
- Enlist the help of the media to provide frequent updates to the public, particularly providing accurate information where rumors need to be dispelled.

After the immediate incident response period, Colusa Unified School District will conduct public meetings as needed. These meeting are designed to provide the opportunity for people to ask questions and receive accurate information.

4. Communication With First Responders

The Incident Commander will maintain communication with first responders during an incident. Transfer of command will occur when first responders arrive on the scene to assume management of the incident under their jurisdiction. Colusa Unified School District frequently exercises the School EOP with first responders to practice effective coordination and transfer of command.
5. Communication After an Incident (Recovery Process)
After the safety and status of staff and students have been assured, and emergency conditions have abated following an incident, staff/faculty will assemble to support the restoration of the school’s educational programs. Defining mission-critical operations and staffing will be a starting point for the recovery process. Collecting and disseminating information will facilitate the recovery process.

The staff/faculty teams will:
- Conduct a comprehensive assessment of the physical and operational recovery needs.
- Assess physical security, data access, and all other critical services (e.g., plumbing, electrical).
- Examine critical information technology assets and personnel resources, and determine the impact on the school operations for each asset and resource that is unavailable or damaged.
- Document damaged facilities, lost equipment and resources, and special personnel expenses that will be required for insurance claims and requests for State and Federal assistance.
- Provide detailed facilities data to the school district office so that it can estimate temporary space reallocation needs and strategies.
- Arrange for ongoing status reports during the recovery activities to:
  a) estimate when the educational program can be fully operational; and
  b) identify special facility, equipment, and personnel issues or resources that will facilitate the resumption of classes.
- Educate school personnel, students, and parents on available crisis counseling services.
- Apprise the Colusa County Office of Education of recovery status.

The school district will:
- Identify recordkeeping requirements and sources of financial aid for State and Federal disaster assistance.
- Establish absentee policies for teachers/students after an incident.
- Establish an agreement with mental health organizations to provide counseling to students and their families after an incident.
- Develop alternative teaching methods for students unable to return immediately to classes: correspondence classes, videoconferencing, etc.
- Create a plan for conducting classes when facilities are damaged (e.g., alternative sites, half-day sessions, portable classrooms).
Get input on prevention and mitigation measures that can be incorporated into short-term and long-term recovery plans.

C. Communication Tools

Some common internal and external communication tools that Colusa Unified School District may use include the following:

- **Standard telephone**: Colusa Unified School District has designated a school telephone number as a recorded “hotline” for parents to call for information during incidents. The goal is to keep other telephone lines free for communication with first responders and others.

- **Cellular telephones**: These phones may be the only tool working when electric service is out; they are useful to faculty/staff en-route to or from a site.

- **Intercom systems**: The intercom system includes teacher-initiated communication with the office using a handset rather than a wall-mounted speaker.

- **Bullhorns and megaphones**: A battery-powered bullhorn is part of the school’s emergency to-go kit to address students and staff who are assembling outside the school. Procedures governing storage and use will help ensure readiness for use.

- **Computers**: A wireless laptop computer may be used for communication both within the school and to other sites. Email may be a useful tool for updating information for staff, other schools in an affected area, and the district superintendent. An assigned staff member(s) will post information such as school evacuation, closure, or relocation on the home page of the school and district Web site.

- **Fax machines**: Possible uses include off-campus accidents where lists of students and staff members involved, their locations, and needed telephone numbers can be quickly and accurately communicated. Medical information, release forms, and authorizations include the designated fax number.

- **Alarm systems**: Bells or buzzers are in place and sound in different ways to signal different types of incidents – for example, fire, lockdown, or special alert (with instructions to follow). All staff/faculty, support staff, students, and volunteers will be trained on what the sounds mean and how to respond to them.

- **Whistles**: Whistles should be included in crisis kits in order to signal a need for immediate attention or assistance.
VI. ADMINISTRATION, FINANCE, AND LOGISTICS

A. Agreements and Contracts

If school resources prove to be inadequate during an incident, Colusa Unified School District will request assistance from local emergency services, other agencies, and industry in accordance with existing mutual aid agreements and contracts (see Section IV, Direction, Control, and Coordination, for specific details). Such assistance includes equipment, supplies, and/or personnel. All agreements are entered into by authorized school officials and are in writing. Agreements and contracts identify the school district officials authorized to request assistance pursuant to those documents.

B. Recordkeeping

1. Administrative Controls

Colusa Unified School District is responsible for establishing the administrative controls necessary to manage the expenditure of funds and to provide reasonable accountability and justification for expenditures made to support incident management operations. These administrative controls will be done in accordance with the established local fiscal policies and standard cost accounting procedures.

2. Activity Logs

The ICS Section Chiefs will maintain accurate logs recording key incident management activities, including:
- Activation or deactivation of incident facilities.
- Significant changes in the incident situation.
- Major commitments of resources or requests for additional resources from external sources.
- Issuance of protective action recommendations to the staff and students.
- Evacuations.
- Casualties.
- Containment or termination of the incident.
C. Incident Costs

1. Annual Incident Management Costs

The ICS Finance and Administration Section is responsible for maintaining records summarizing the use of personnel, equipment, and supplies to obtain an estimate of annual incident response costs that can be used in preparing future school budgets.

2. Incident Costs

The ICS Finance and Administration Section Chief will maintain detailed records of costs for incident management and operations to include:

- Personnel costs, especially overtime costs,
- Equipment operations costs,
- Costs for leased or rented equipment,
- Costs for contract services to support incident management operations
- Costs of specialized supplies expended for incident management operations.

These records may be used to recover costs from the responsible party or insurers or as a basis for requesting financial assistance for certain allowable response and recovery costs from the State and/or Federal government.

D. Preservation of Records

In order to continue normal school operations following an incident, vital records must be protected. These include legal documents and student files as well as property and tax records. The principal causes of damage to records are fire and water; therefore, essential records should be protected accordingly.
VII. PLAN MAINTENANCE, & DISTRIBUTION

The Core School Emergency Operations Planning Team is responsible for the overall maintenance and revision of the Colusa Unified School District EOP. The Exercise Planning Team is responsible for coordinating training and exercising the School EOP. Both teams are expected to work closely together to make recommendations for revising and enhancing the plan.

The School Board and the superintendent are responsible for approving and promulgating this plan. Community fire, law enforcement, and emergency managers’ approval and suggestions will also be requested.

A. Approval and Dissemination of the Plan

The School Board together with the principal and superintendent will approve and disseminate the plan and its appendixes following these steps:
- Review and Validate the Plan
- Present the Plan (for Comment or Suggestion)
- Obtain Plan Approval (School Board)
- Distribute the Plan

1. Record of Changes

Each update or change to the plan will be tracked. The record of changes will include: the change number, the date of the change, and the name of the person who made the change. The record of changes will be in table format and maintained by the District Leadership Team which will act as the Emergency Operations Planning Team.

2. Record of Distribution

Copies of plans and appendixes will be distributed to those tasked in this document. The record of distribution will be kept as proof that tasked individuals and organizations have acknowledged their receipt, review, and/or acceptance of the plan. Emergency Operations Planning Team and will indicate the title and name of the person receiving the plan, the agency
Colusa Unified School District
Emergency Operations Plan

to which the receiver belongs, the date of delivery, and the number of copies delivered. Copies of the plan may be made available to the public and media without the sensitive information at the discretion of the School Board.

B. Plan Review and Updates

The basic plan and its appendixes will be reviewed annually by the Emergency Operations Planning Team, emergency management agencies, and others deemed appropriate by school administration. The principal will establish a schedule for annual review of planning documents.

The School EOP will be updated based upon deficiencies identified during incident management activities and exercises and when changes in threat hazards, resources and capabilities, or school structure occur.

C. Training and Exercising the Plan

Colusa Unified School District understands the importance of training, drills, and exercises in maintaining and planning for an incident. To ensure that district personnel and community first responders are aware of their duties and responsibilities under the school plan and the most current procedures, the following training, drill, and exercise actions will occur. The EOP Team will coordinate training and exercising efforts in accordance with the Homeland Security Exercise and Evaluation Program.

Basic training and refresher training sessions will be conducted during the first in-service day of the school year for all school personnel in coordination with local fire, law enforcement, and emergency managers.

Mandatory School EOP training will include:

- Hazard and incident awareness training for all staff.
- Orientation to the School EOP.
- First aid and CPR for all staff.
- Team training to address specific incident response or recovery activities, such as Parent-Student Reunification, Special Needs, and Relocation.
- Two online FEMA courses: ICS 100 and IS-700. Both courses are available for free at FEMA’s Emergency Management Institute Web site.

Additional training will include drills, and tabletop and functional exercises. Drills will be conducted at least once per semester. Exercises will occur at least once per school year.
Approved parent volunteers and community members will also be incorporated into larger training efforts.

All Colusa Unified School District staff members are expected to develop personal and family emergency plans. Each family should anticipate that a staff member may be required to remain at school following a catastrophic event. Knowing that the family is prepared and can handle the situation will enable school staff to do their jobs more effectively.
VIII. AUTHORITIES AND REFERENCES

The following regulations are the State authorizations and mandates upon which this School EOP is based. These authorities and references provide a legal basis for incident management operations and activities.

- Colusa Unified School District Policy BP3516 mandates that the district shall develop and maintain a comprehensive safety and disaster preparedness plan.

- California Education Code 32282 specifies implementing and using the Standardized Emergency Management System, which mandates the use of the National Incident Management System and the use of the Incident Command System for managing all disaster/crisis situations.
IX. CONTINUITY OF OPERATIONS (COOP) PROCEDURES

I. PURPOSE

The purpose of these Continuity of Operations (COOP) procedures is to ensure that there are procedures in place to maintain or rapidly resume essential operations within the school after an incident that results in disruption of normal activities or services to the school. Failure to maintain these critical services would significantly affect the education and/or service mission of the school in an adverse way.

II. SCOPE

It is the responsibility of Colusa Unified School District officials to protect students and staff from incidents and restore critical operations as soon as it is safe to do so. This responsibility involves identifying and mitigating hazards, preparing for and responding to incidents, and managing the recovery. These COOP procedures are written to address these responsibilities before, during, and after times of routine work schedules.

The COOP procedures outline actions needed to maintain and/or rapidly resume essential academic, business, and physical services after an incident. Colusa Unified School District relies on strong internal and external communication systems and partnerships with contractors and organizations to quickly recover following an incident.

III. RESPONSIBILITIES

The delegation of authority and management responsibilities in event of an incident follows the hierarchy outlined in previous sections.

Designated school staff/faculty COOP procedures personnel, in conjunction with the principal, will perform the essential functions listed in Table 3.

Table 3. Essential Functions Performed by COOP Procedures Personnel
### Superintendent or Designee
- Determine when to close schools, and/or send students/staff to alternate locations.
- Disseminate information internally to students and staff.
- Communicate with parents, media, and the larger school community.
- Identify a line of succession, including who is responsible for restoring which business functions for schools.
- Ensure systems are in place for rapid contract execution after an incident.

### Principal and/or Department Heads
- Identify relocation areas for classrooms and administrative operations.
- Create a system for registering students (out of district or into alternative schools).
- Brief and train staff regarding their additional responsibilities.
- Secure and provide needed personnel, equipment and supplies, facilities, resources, and services required for continued operations.
- Identify strategies to continue teaching (e.g., using the Internet, providing tutors for homebound students, rearranging tests).
- Reevaluate the curriculum.

### Custodians / Maintenance / Transportation Personnel
- Work with local government officials to determine when it is safe for students and staff to return to the school buildings and grounds.
- Manage the restoration of school buildings and grounds (e.g. debris removal, repairing, repainting, and/or re-landscaping).
- Determine how transportation services will resume.

### Administrative Assistants / Office Staff
- Maintain inventory.
- Maintain essential records (and copies of records) including school's insurance policy.
- Ensure redundancy of records is kept at a different physical location.
- Secure classroom equipment, books, and materials in advance.
- Restore administrative and recordkeeping functions such as payroll, accounting, and personal records.
- Retrieve, collect, and maintain personnel data.
- Provide accounts payable and cash management services.

### Counselors, Social Workers, and School
- Establish academic and support services for students and staff/faculty.
To implement the COOP procedures:

All core COOP procedures personnel as well as senior staff will undergo periodic training on executing the COOP procedures. Training will be designed to inform each participant of his/her responsibilities (and those of others) during implementation of COOP procedures.

Identified COOP procedures personnel will participate in exercises to test academic, physical, and business systems. Training will include testing the information technology (IT) systems and backup data including testing of offsite backup system data and IT operating systems in cooperation with the district office.

IV. PROCEDURES

The following procedures will be followed by staff/faculty to assist in the execution of essential functions and the day-to-day operations.

A. Activation and Relocation

The Superintendent will determine when to activate and implement the COOP procedures and make the decision to relocate to the alternate site. Authority for activation may be delegated. The activation may occur with or without warning. The Superintendent or designee (with delegated authority) will activate the COOP procedures whenever it is determined the school is not suitable for safe occupancy or functional operation. The principal will also notify the district office and provide contact information for the relocation.

B. Alert, Notification, and Implementation Process

Each Emergency Operations Planning Team member will be part of the telephone tree used to notify employees of COOP procedures activation and provide situation information, as available. Parents/guardians will be alerted and notified using the automated notification system as important information becomes available.
C. Relocation Sites

Relocation sites will be identified as locations to establish management and to implement essential functions if warranted by an incident. Each school site will have more than one potential relocation site, in different wind directions from the incident site.

D. Alternate Facilities and Strategy

For estimated short-term (2 to 14 days) payroll and personnel actions, the alternative facility will be Colusa County Office of Education. For a longer term arrangement, district or community facilities will be utilized until the District Office is operational.

For each alternate facility, the essential resources, equipment, and software that will be necessary for resumption of operations at the site will be identified and plans developed for securing those resources. IT systems available at the site will need to be tested for compatibility with Colusa Unified’s backup data.

E. Interoperable Communications/Backup Sites

As noted above, the Colusa County Office of Education will be used as a temporary alternative site for short-term disruptions involving payroll and personnel actions.

With a longer term and/or more comprehensive incapacity of the building, another CUSD facility is the first option for relocation. Currently the lines and services for telephones and computers at the CUSD District Office are maintained, protected, and backed up offsite by the district office.
F. Vital Records and Retention File

Vital records are archived and/or retained on backup data systems stored off site.

G. Human Capital Management

Employees responsible for essential functions are cross-trained. Identified special needs employees are provided Americans with Disabilities Act (ADA) accommodation and guidance in their responsibilities as well as the assistance that may be provided by coworkers in event of an incident. A coworker may assist the individual, in the appropriate capacity, to an area of safety. All personnel are also encouraged to plan for their families’ well-being before a disaster strikes.

H. Reconstitution

In most instances of COOP procedures implementation, reconstitution will be a reverse execution of those duties and procedures listed above, including:

- Inform staff that the threat of or incident no longer exists, and provide instructions for the resumption of normal operations.
- Supervise an orderly return to the school building.
- Conduct an after-action review of COOP operations and effectiveness of plans and procedures.

RECOVERY: PSYCHOLOGICAL HEALING PROCEDURES

I. PURPOSE

These procedures have been developed to provide an emotional catharsis to students/staff impacted by trauma at school or in the community. Following a traumatic event or incident, the following recovery procedures should be implemented to assist students, staff, and their families in the healing process.

II. SCOPE

The following procedures outline steps to be taken by staff/students following a trauma, a serious injury or death, and/or a major incident
Colusa Unified School District
Emergency Operations Plan

impacting the community. Mental health professionals available in the school community such as nurses and social workers are required to participate in the development, implementation, and evaluation of the School EOP as it relates to this appendix. Additional advice will be sought from outside psychologists and mental health experts.

III. RESPONSIBILITIES

To implement the recovery: psychological healing procedures:
- All staff will undergo training to learn how to recognize signs of trauma.
- Members of the Crisis Response Team will undergo in-depth training to learn how to assist in managing trauma.
- Parents and guardians will be offered tips on how to recognize signs of trauma.
- Mental health experts will review and provide input into the plan.

IV. SPECIALIZED PROCEDURES

The following procedures will be implemented by staff/faculty when directed by the principal or when deemed appropriate by the situation.

Immediately Following a Serious Injury or Death and/or Major Incident
- Convene a staff meeting immediately to discuss how the situation is being handled and to discuss what resources are available to staff, students, and families (refer to the communication procedures in the basic plan).
- Set up crisis centers and designate private rooms for private counseling/defusing. Staff should include outside mental health professionals to assist with staff grief.
- Encourage teachers to facilitate class discussions about the incident and allow students to openly discuss feelings, fears, and concerns shortly after the incident. Any students who are excessively distraught should be referred to the crisis response team.
- Accept donations. In the first hours and days after a major incident, offers of help will probably be plentiful; however, offers will diminish considerably as time passes. Donations given and not used can always be returned.
- Designate a place for staff, students, and community members to leave well-wishes, messages, and items.

Hospital/Funeral Arrangements
- Provide staff with information regarding visitation and/or funeral arrangements (time, location, customs) when available. If the funeral is scheduled during a school day, all student and staff will be excused from
Encourage staff and students to attend the funeral to provide support for the family and bring closure to the incident.

Designate staff person(s) to visit the hospital and/or attend the funeral to represent the school.

**Post-Incident Procedures**

- Allow for changes in normal routines or schedules to address injury or death; however, recommend students and staff return to their normal routine as soon as possible after the funeral.
- Follow up with students and staff who receive counseling and refer them to outside mental health professionals as needed.
- Donate all remaining memorial items to charity.
- Discuss and approve memorials with the school board’s consent.
Hazard and Threat-Specific Procedures

Appendix A

NATURAL HAZARDS: FLOOD / SEVERE STORM (NEAR OR ON SCHOOL GROUNDS)

I. PURPOSE

Earthquakes, Floods and severe storms are natural features of the climate, topography, geology, and hydrology of Colusa and its surrounding areas. Some floods develop slowly during an extended period of rain or in a warming trend following a heavy snow. Flash floods can occur quickly, without any visible sign of rain. Catastrophic floods are associated with burst dams and levees, severe storms, tsunamis, and earthquakes. Generally, earthquakes in this area are relatively minor, but moderate ground shaking can occur and damage buildings. The purpose of this appendix is to ensure that there are procedures in place to protect staff / students and school property in case of a flood or a severe storm.

II. SCOPE

This appendix outlines additional responsibilities and duties as well as procedures for staff responding to a flood, storm or earthquake near or on school grounds.

III. CORE FUNCTIONS

The National Weather Service, and other Federal cooperative agencies have an extensive river and weather monitoring system and provide flood and storm, and earthquake watch and warning information to the school community via radio, television, Internet, and telephone. In the event of a flood or severe storm, the Incident Commander, or principal, will activate the EOP and implement the Incident Command System.

The school intercom acts as a warning system to notify staff / faculty and students in case of imminent or confirmed severe storms and flooding.
including that due to levee failure. If there is a loss of power, cell phones, a
compressed air horn or megaphone and two-way radios will serve as backup
alerting / communication devices.

A. Operational Functions/Procedures That May Be Activated

Operational functions or procedures that may be activated in the event
of a flood include the following:
- Evacuation
- Shelter in Place
- Relocation
- Parent-Student Reunification
- Special Needs Population Considerations
- Continuity of Operations (COOP)
- Recovery: Psychological Healing
- Mass Care

B. Activating the EOP

The principal/building administrator will determine the need to activate the
EOP and designate an Incident Commander.

1. Incident Commander Actions
- Issue stand-by instruction. In consultation with the principal /
  Policy Group determine if evacuation or sheltering is required.
- Notify local law enforcement of intent to evacuate or shelter, the location
  of the safe evacuation / shelter site, and the route to be taken to that site.
- Delegate a search team to ensure that all students have been evacuated
  or are sheltered.
- Activate communications plan.
- Determine if additional procedures should be activated.
- Issue directed transportation instruction if students will be evacuated
  to a safer location by means of buses and cars.
- Notify the principal / Policy Group of the status and action taken.
- Update the principal / Policy Group, Incident Management Team, and
  Section Chiefs of any significant changes.
- Do not allow staff and students to return to any damaged
  building until proper authorities have determined that it is safe
to do so.
- Communicate with bus drivers.
- Determine whether school will be closed or remain open.
- Document all actions taken.

2. Incident Management Team and Section Chiefs Actions
Monitor radio and Internet for flood information and report any developments to the Incident Commander.

Review procedures with staff as needed.

Disseminate information about the incident and follow-up actions such as where the school has relocated and parent-student reunification procedures.

Implement the internal and external communications plan.

Notify relocation centers and determine an alternate relocation center, if needed, if primary and secondary centers would also be damaged.

Implement additional procedures as instructed by the Incident Commander.

Take appropriate action to safeguard school property.

Document all actions taken.

3. Staff Actions

Execute evacuation or shelter procedures when instructed by the Incident Management Team and/or Section Chiefs.

Locate the class roster and emergency to-go kits.

Take attendance before leaving campus if evacuating.

Remain with students throughout the evacuation process.

Upon arrival at the safe site, take attendance. Report any missing or injured students to the Incident Commander.

Do not return to the school building until it has been inspected and determined safe by proper authorities.

Document all actions taken.

4. Bus Driver Actions

If evacuation is by bus, do not drive through flooded streets and/or roads. Do not attempt to cross bridges, overpasses, or tunnels that may be damaged.

If the driver is caught in an unavoidable situation, seek higher ground immediately. If the bus stalls and water is rising, immediately abandon the bus and seek higher ground before the situation worsens.

Use two-way radios or cell phones to communicate with the Incident Commander, Incident Management Team, and Section Chiefs.

Document all actions taken.
Appendix B

TECHNOLOGICAL HAZARDS: CHEMICAL SPILL / FIRE

I. PURPOSE

Hazardous chemicals are used for a variety of purposes and are regularly transported through many areas in and around Colusa. Currently, small amounts of pesticides, herbicides, fuels, lubricants, and adhesives are all used and stored on school grounds. Cleaning products such as chlorine and ammonia solutions may be found in almost every building. Very small quantities of laboratory chemicals are stored in Egling Middle School and Colusa High School Science classrooms. The purpose of this appendix is to ensure that there are procedures in place to protect staff/students and school property in case of a chemical spill.

II. SCOPE

The appendix outlines additional responsibilities and duties as well as procedures for staff responding to a chemical spill or fire.

III. CORE FUNCTIONS

Chemical accidents may originate inside or outside the building. Examples include: gas leaks, toxic leaks or spills caused by tank, truck, or railroad accident; water treatment / waste treatment plants; and industry or laboratory spills.

The Colusa Unified School District maintenance team inspects stored chemicals. The school intercoms act as a warning system to notify staff/faculty and students. Decontamination of equipment and personnel will be coordinated with the local emergency responders.

A. Operational Functions / Procedures That May Be Activated

Operational functions, or procedures, that may be activated in the event of an external chemical spill or fire near a school building include:

- Shelter-in-Place
If there is an internal chemical spill or fire, the following procedures may be activated:

- Evacuation
- Special Needs Population
- Parent-Student Reunification
- Continuity of Operations (COOP)
- Recovery: Psychological Healing
- Mass Care

The Incident Commander and the Incident Management Team / Section Chiefs will determine if and when these procedures should be activated.

**B. Activating the EOP for an External Chemical Spill**

The principal will determine the need to activate the EOP and designate a temporary Incident Commander until a qualified HazMat Incident Commander arrives at the scene.

If the chemical spill or fire is external, the following steps will be taken by the school community:

1. **Incident Commander Actions**
   - Issue stand-by instruction if school is in session.
   - Determine what procedures should be activated.
   - Consider a reverse evacuation to bring all persons inside the building.
   - Notify Maintenance/Building and Grounds Manager to shut off mechanical ventilating systems.
   - Notify local law enforcement of intent to shelter in place.
   - Notify the principal/Policy Group of the status and action taken. The principal/Policy Group shall notify the superintendent of schools.
   - Activate communications plan.
   - Issue directed transportation instruction if students will be evacuated to a safer location by means of buses and cars.
   - Update the principal/Policy Group, Incident Management Team, and Section Chiefs of any significant changes.
   - Do not allow staff and students to return to the building until proper authorities have determined that it is safe to do so.
2. **Incident Management Team and Section Chiefs Actions**
   - Review procedures with staff if needed.
   - Implement the internal and external communications plan.
   - Monitor radio and Internet for additional information and report any developments to the Incident Commander.
   - Disseminate information about the incident and follow-up actions such as where the school has relocated and parent-student reunification procedures.
   - Notify relocation centers and determine an alternate relocation center if necessary.
   - Implement additional procedures as instructed by the Incident Commander.
   - Take appropriate action to safeguard school property.
   - Document all actions taken.

3. **Staff Actions**
   - Move students away from immediate vicinity of danger.
   - If you smell gas, immediately evacuate. **Do not turn on or off any electrical equipment.** Notify administration but do not use a phone.
   - Implement the reverse evacuation procedure if students are outside; observe wind direction by observing flags or leaves and move students appropriately.
   - Execute shelter-in-place procedures when instructed by the Incident Management Team and/or Section Chiefs.
   - Remain with students throughout the shelter-in-place process.
   - Report any missing or injured students to the Incident Commander.
   - Remain in sheltered area until the “all clear” signal has been issued.
   - In the event of building damage, evacuate students to safer areas of the building or from the building. If evacuation does occur, do not re-enter the building until an “all clear” signal is issued.
   - Document all actions taken.

C. **Activating the EOP for an Internal Chemical Spill**

The principal will determine the need to activate the EOP and designate a temporary Incident Commander until a qualified HazMat Incident Commander arrives at the scene.

If the chemical spill is internal, the following steps will be taken by
the school community:

1. **Person Discovering the Spill**
   - Alert others in immediate area to leave the area.
   - Close windows and doors and restrict access to affected area.
   - Notify principal / teacher.
   - Do not eat or drink anything or apply cosmetics.

2. **Incident Commander Actions**
   - Issue stand-by instruction to all staff and students.
   - Determine what procedures should be activated.
   - Activate the evacuation procedures using primary or alternate routes, avoiding exposure to the chemical fumes.
   - Consider an all-school evacuation.
   - Notify Maintenance/Building and Grounds Manager to shut off mechanical ventilating systems.
   - Notify the local fire department and the Department of Public Health. Provide the following information:
     - School name and address, including nearest cross street(s).
     - Location of the spill and/or materials released; name of substance, if known.
     - Characteristics of spill (color, smell, visible gases).
     - Injuries, if any.
   - Notify local law enforcement of intent to evacuation.
   - Notify the principal/Policy Group of the status and action taken.
     - The principal/Policy Group shall notify the superintendent of schools.
   - Activate communications plan.
   - Issue directed transportation instruction if students will be evacuated to a safer location by means of buses and cars.
   - Update the principal/Policy Group, Incident Management Team, and Section Chiefs of any significant changes.
   - Do not allow staff and students to return to the building until proper authorities have determined that it is safe to do so.
   - Give the “all clear” signal after the threat has passed.
   - Determine whether school will be closed or remain open.
   - Document all actions taken.

3. **Incident Management Team and Section Chiefs Actions**
   - Move staff and students away from the immediate danger zone and keep staff and students from entering or congregating in danger zone.
   - Review procedures with staff if needed.
   - Implement the internal and external communications plan.
4. Staff Actions

Move students away from immediate vicinity of danger.
Report location and type (if known) of the hazardous material to Incident Commander.
Execute evacuation and relocation procedures when instructed by the Incident Management Team and/or Section Chiefs unless there is a natural or propane gas leak or odor. If a natural or propane gas leak or odor is detected, evacuate immediately and notify the principal.
If evacuation is implemented, direct all students to report to assigned evacuation area. Take class roster and emergency to-go kits.
Check that all students have left the building. Students are not to be left unattended at any time during evacuation process.
Upon arrival at evacuation site, take attendance. Notify Incident Commander or designee of any missing or injured students.
Remain with students throughout the evacuation and relocation process.
Report any missing or injured students to the Incident Commander.
Remain in sheltered area until the “all clear” signal has been issued.
Do not return to the building until emergency response personnel have determined it is safe.
Render first aid as needed.
Appendix C

HUMAN-CAUSED HAZARDS: INTRUDER / TERRORISM

I. PURPOSE

The purpose of this appendix is to ensure that there are procedures in place to protect staff / students and school property in the event of an intruder / terrorist incident on school grounds or in the school building.

II. SCOPE

The appendix outlines additional responsibilities and duties as well as procedures for staff responding to an intruder / terrorist incident on school grounds or in the school building.

III. CORE FUNCTIONS

Colusa Unified School District will post signs at points of entry to the campus and buildings from streets and parking lots stating the following:

All visitors entering school grounds on school days between 7:30 a.m. and 4:30 p.m. must register at the Main Office.

To prevent intruders on campus, Colusa Unified School District administrators will keep doors secure, require sign-in sheets for visitors, and use cameras and staff to monitor entryways.

In the event of an intruder, Colusa Unified School District will contact law enforcement agencies for their assistance. Practiced procedures may be put into action to alert and protect students and faculty/staff.

Precautionary measures are outlined below to keep school personnel and students from undue exposure to danger. Efforts should be made to remain calm, to avoid provoking aggression, and to keep students safe.
A. Operational Functions / Procedures That May Be Activated

Operational functions or procedures that may be activated in the event of an intruder on campus include the following:
- Lockdown
- Lockout
- Evacuation
- Parent-Student Reunification
- Recovery: Psychological Healing

B. Activating the EOP

The principal will determine the need to activate the EOP and designate an Incident Commander to implement the procedures specified in this appendix. The school Incident Commander will transfer command upon the arrival of a law enforcement Incident Commander who has authority to manage the incident.

1. Incident Commander Actions
   - Issue stand-by instruction.
   - Determine what procedures should be activated depending on the location and nature of the intruder.
   - Consult with local law enforcement and emergency management agencies and monitor the situation.
   - If appropriate and safe to do so, request intruder to leave campus in a calm, courteous, and confident manner.
   - Notify law enforcement to assist if necessary.
     - Provide a description and location of intruder.
   - Keep subject in view until police or law enforcement arrives.
   - Activate communications plan.
   - Designate an administrator or staff member to coordinate with public safety at their command post; provide a site map and keys to public safety personnel.
   - Notify the principal/Policy Group of the status and action taken. The principal/Policy Group shall notify the superintendent of schools.
   - Be available to deal with the media and bystanders and keep site clear of visitors.
   - Activate the Crisis Response Team to implement recovery: psychological healing procedures.
   - Update the principal/Policy Group, Incident Management Team, and Section Chiefs of any significant changes.
   - Do not allow staff and students to enter or leave the building until proper
2. Staff Actions

- Notify the Incident Commander or designee. Provide description and location of the intruder. Visually inspect the intruder for indications of a weapon.
- Keep intruder in view until law enforcement arrives.
- Stay calm, do not indicate any threat to the intruder.
- Isolate intruder from students.
- During Lockdowns, do not open locked door - law enforcement will have keys.
- If safe to do so, consider evacuation as an alternative to lockdown.
- Consider distributing heavy objects which might be thrown at the intruder should they enter your room.
- Search for items which might be used as defensive weapons – cleaning solutions, fire extinguishers, etc.
- If the intruder enters your room, do not remain still. Prepare students to “swarm” past intruder and rush out the door.

Comprehensive School Safety Plan

I. Purpose
This plan has been developed to comply with Senate Bill 187 (Hughes), Comprehensive School Safety Plan Act, (Ed Code 35294.1-35294.9).

II. Scope
This plan covers Burchfield Primary School grades TK – 3rd.

Colusa Unified School District Mission Statement
The Mission of CUSD is to provide a safe, student-centered, high quality education to ALL students

Colusa Unified School District Vision Statement
To provide, in cooperation with our families, an excellent, well-balanced education where students gain skills necessary for success in an ever-changing world.

III. Elements and Requirements of the Comprehensive School Safety Plan
The Comprehensive School Safety Plan Act requires that the Plan includes, but not necessarily limited to:

1. Assessing the current status of school crime committed on the school campus and at school functions
2. Identifying appropriate strategies and programs that will maintain a high level of school safety.
3. Address the school’s procedures for complying with the existing laws related to school safety.

Plan Approval
Each school is responsible for the development of a Comprehensive School Safety Plan which is evaluated and amended by the school Site Council or School Safety Committee annually. The Plan is then to be forwarded to the School District Board for approval.

Public Hearings
Prior to adopting the Plan, the school Site Council or the School Safety Committee is required to hold a public hearing to allow the members of the public to express an opinion about the school safety plan. All safety related materials must be kept up to date, on file and available at the Colusa Unified School District Office and at Burchfield Primary School office for inspection by the public. Due to small school exemptions that exist, the District may develop a district-wide school safety plan that applies to each school in the District.

It is in the intent of the regulation that schools use existing resources to develop the Plan. The schools will use materials and services from the School Safety Partnership, pursuant to Ed Code, Section 32260.

IV. Steps in the Safe Schools Planning Process
A seven step planning process has been used to guide the school safety-planning committee in addressing the components of the safe school model. The steps are as follows:

1. Identify your safe school planning committee members
2. Create a mission statement or vision for your school
3. Gather and analyze information about your school and its community
4. Identify your school and community areas of desired change
5. Set major goals which are located in the action plan
6. Select and implement strategies for each safe school component located in the action plan
7. Evaluate and assess progress.

V. School Safety Planning Committee
The school safety planning committee is responsible for developing the Comprehensive School Safety Plan. The committee has consulted with law enforcement in the development of this plan. The committee is comprised of the following:
Principal or the Principal’s designee
Three Certificated Teachers
One Classified Employee
Three Parents
One Fire Department Employee
One Special Education Teacher

VI. Current Status of School Crime Committed on School Campus and at School Related Functions
The school has used several methods of gathering information on school crime on campus and at school related functions. The resources listed were used, but not limited to:

- Student Information Systems
- Staff, Student and Parent Surveys
- School Crime Report Statistics
- Truancy Data
- Accident Reports from the School Nurse
- Vandalism Reports and Work orders to repair vandalism
- Community Juvenile Crime Statistics

The resources were used to assist the school in gathering information about the school and its community. The information has been used to identify the school and community desired areas of change. The information also assisted in developing goals and strategies. These goals have been listed in the action plan.
VII. The Action Plan consists of four components. The four components interact and affect the safety of the entire campus. In the action plan each component lists a safe school element and a planning strategy and goal.

- Component 1 – Personal Characteristics of Students and Staff
- Component 2 – The Schools Physical Environment
- Component 3 – The Schools Social Environment
- Component 4 – The Schools Cultural Environment

The following action plan has been developed for each of four components.

Component 1

Personal Characteristics of Students and Staff

Ethnic / Cultural Diversity of Students
The backgrounds of all students will be acknowledged, respected and incorporated into all phases of the school curriculum and activities whenever possible.

Life Experiences of Students and Staff
Community support services will be utilized to provide essential needs such as food, clothing, shelter, protective services, school supplies, support services, behavior health services, and welfare checks. Tutoring services are provided in a variety of ways including Burchfield’s After School Program, Migrant Education, Native American Council, and individual teacher driven tutoring.

Positive community role models, people who have overcome life’s adversities, cultural role models, student and staff will be asked to share their talents with our schools.

In conjunction with the Colusa Fire Department all students are provided with fire safety training for students in grades TK through 3rd.

Staff Expertise / Diversity
Staff members with diversified expertise will be recruited to work effectively with students.

Physical Health and Concerns
Educational programs will include nutrition, alcohol, and other drug-use prevention issues. We will coordinate community health services for prevention and intervention programs for students.
Component 2

The Schools Physical Environment

School Location
Burchfield Primary School is located near high traffic areas. Burchfield has a fenced campus that is locked during business hours. Large School Zone signs have been installed on Fremont street, 4th Street, and on Lafayette Street. Flashing crosswalk signals have been installed on two crosswalks, one in front of the school on Fremont Street and one on the corner of 4th and Lafayette Street. Safe Routes to School funding has been used to improve sidewalks and traffic signals near the school.

School Grounds
Burchfield’s campus has undergone recent upgrades including interior and exterior lighting, new asphalt playgrounds, trip hazards removed, ADA compliant sidewalks and access points and ADA compliant restrooms.

Physical conditions that lead to accidental harm will be corrected promptly. Grounds will be kept graffiti free and well maintained.

School Buildings and Classrooms
Buildings will be well maintained and attractive, have easy access for all students and staff, be free of physical hazards, and designed to prevent criminal activities.

Internal Security Procedures
Vandalism policies are in place at Burchfield. The school and community will continue to collaborate on crime prevention efforts. New interior and exterior lighting and interior sensors have been installed. The local police department’s vigilance will be a deterrent to vandalism and crime.

A crisis response plan identifies the standard response protocol for emergencies such as fire, earthquake, bomb threat, chemical spills, and dangerous strangers on campus or in the vicinity of the school. It also includes procedures for missing students, school closure, and student check out. There is a protocol for the death of student or a staff member. The district emergency response manual includes the incident command protocol and logistics.
Component 3

The School’s Social Environment

Leadership
The Principal and site management team will provide strong leadership, establish a positive tone, will emphasize the importance of positive staff attitudes, will model and demonstrate responsiveness, consideration, sensitivity, and respect.

School Site Management
Students, parents, certificated and classified staff, and representatives from the community including but not limited to law enforcement, and businesses will participate in goal setting decision making at the school level whenever appropriate.

Classroom Organization and Structure
Classroom conditions will provide an orderly learning environment, enhance the learning experience and promote positive interactions among staff and students. Topics presented will include responsible citizenship, appreciation of cultural diversity, self-esteem, anger management, emotional development, social expectations, goal setting and effective communication and relationships.

Discipline
Consequences for violating behavior and academic expectations will be communicated to staff, students and parents. Discipline will be fair and developmentally appropriate. The discipline process will be aimed at changes in behavior and attitude. Staff members will respond fairly and consistently to violation. Parents will be notified of violations.

Participation and Involvement
Partnerships will be purposefully facilitated between students, teachers, parents, community members, police and fire departments, health and welfare agencies, probation, for the purpose of planning, training workshops and other safe school planning and activities, whenever appropriate.
Component 4
The School’s Culture

Affiliation and Bonding
Students and staff will feel physically and emotionally secure from physical and verbal attacks. All stakeholders will feel comfortable to share unwanted events with administration.

A sense of community will be fostered so that all members of the school community can feel pride in their school and feel that they are important members of the school. A caring spirit will be fostered by all so that concern will be shown for others and all will accept ownership of the conditions and events that happen at school.

Behavioral Expectations
Behavioral expectations will be identified, clearly stated verbally and written communication will be sent to families. Adults will model respectful, positive behaviors when dealing with students and with each other.

The members of the school community will model high moral standards, send positive messages to students and expect the best effort and performance from everyone.

Academic Expectation
Clear and positive academic expectations will be communicated. Gradebooks will be kept up to date and families will conference with their child’s teacher’s during October and as needed during the school year. Parents will be notified in person, by phone, notes home, and/or email by the teacher to discuss any academic changes and/or student needs as necessary. Athletic and extra-curricular activities for students will be encouraged, but a balance with meeting academic standards will be the priority expectation.

Support and Recognition
Constructive, positive behavior will be given appropriate recognition. Positive behavior will be rewarded and acknowledged frequently and publically when appropriate.
Crisis Response Plan

The School Safety plan is updated annually in accordance with Senate Bill 187. The key elements of the plan include traumatic incidents, imminent danger procedure, evacuation/relocation procedure, civil defense/disorder, bomb threat/bomb emergency, earthquake, chemical spill, crime in progress, and fire/explosion. Drills are practiced monthly. The staff participates in Standard Response Protocol emergency scenarios in order to maintain decision-making and communication procedures for a given emergency.

Order students to drop, hold, and cover at the first sign of a quake. Do not wait for a bell.

**EVACUATE:**

A. After the initial shock, evacuate the building according to Fire Drill Procedure.
B. There will be no bell.
C. If an aftershock should occur during the evacuation process, order students to drop and cover.
D. Teachers make sure to take roll and keys.
E. Head Custodian turns off power and gas.

Take your class directly to the assembly area, using the safest path available. Avoid overhangs, power lines, and anything that may fall on your students during transit.

**ASSEMBLY FIELD:**

Assemble your class as a unit (refer to the map). Do not release any students. Take roll immediately. Send a list of any missing or injured students to the mid-field area; include possible locations of missing or injured students.

**ASSEMBLY:**

If an earthquake should occur during an assembly, order your students to drop and cover. After the initial shock, escort students outside using the nearest functional exit. Direct them to assemble on the field. Remind students not to leave school. All teachers should proceed to their assigned locations. Follow steps under “Assembly Field” and “Release of Students.”

**LUNCH:**

If an earthquake should occur during lunch, the lunch and yard duty staff must order the students to duck and cover. The yard duty staff must instruct and will walk the student body to report to their teachers on the TK-1st field, or 2nd-3rd field near the Fremont St. fence if possible. All teachers must report to their field area. All teachers must report to their field and follow steps under "Assembly Field" and "Release of Students."

**PASSING PERIOD:**

If an earthquake should occur during a passing period, students and faculty should duck and cover. After the initial shock, students and faculty must proceed to their appropriate field area.

**RELEASE OF STUDENTS:**

Students will be released to parents at student check-out area.

**DROP DRILL:**

Each teacher is responsible for the safety of their students. Drop drills should be conducted in each class. Instruct the students to duck under their desk, assume a position on their knees using one arm and hand to protect the neck/spinal area and the other arm and hand to secure the desk’s position.

A. Should a spill occur within a classroom: EVACUATE
1. Evacuate according to Fire Drill Procedure.
2. Notify office via a runner or phone.
3. Classroom teacher will be instructed by the administration as to what procedures to follow.

B. Should a spill occur within the vicinity of Burchfield Primary School: LOCKDOWN OR EVACUATE
1. 911 will be called.
2. Remain in your classroom unless ordered by the administration to evacuate.
3. Close all windows and doors (Custodians turn off all outside air intake vents or fans).
4. The custodian will shut down the main power system for the entire school after directed by Admin/Desig.
5. Leave your building only when told to do so, as directed by the principal or designee.

BOMB THREAT
STANDARD RESPONSE PROTOCOL (SRP)
SIGNAL: EVACUATE

Procedures for bomb threat are as follows:

If a bomb threat is received by phone:

- Remain calm. Keep the caller on the line for as long as possible.
- DO NOT HANG UP, even if the caller does.
- Listen carefully. Be polite and show interest.
- Try to keep the caller talking to learn more information.

Ask the caller:

Where is the bomb located? ________________________________

When will it go off? __________________________

What does it look like? ________________________________
What kind of bomb is it? ________________________________

What will make it explode? ________________________________

Did you place the bomb yourself? ________________________________

Why? ________________________________

What is your name? ________________________________

Estimate the caller's age:

Is the voice familiar? ________________________________

If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself **ON A DIFFERENT PHONE LINE**.

If your phone has a display, copy the number and/or letters on the window display.

Write down as much detail as you can remember. Try to get exact words. If you have a recording device available, use it. Complete the Bomb Threat Checklist below immediately. Circle all that apply:

Crisis Response Plan regarding the Death of a Staff Member or Student

In the case of the death of a student or member of the staff this plan will be implemented at the discretion of the Principal and Superintendent. The plan could also be implemented or modified in the case that affect student/staff performance such as a natural disaster, national crisis, assassination, or personal tragedy such as suicide.

Goals

Reduce Fear Fear resides in the unknown, especially in cases of murder or suicide. Provide complete and accurate details concerning the death. This helps to elevate rumors.

Facilitate Grieving Grief is a necessary, normal response to a loss. It is part of the healing process. Allow and encourage expressions of grief in many forms.

Promote Education Help students learn ways of grieving. Teachers can model this and can teach students how to help each other in times of crisis.
Initial Actions to be Taken

Principal

1. Receives initial report.
2. Verifies by calling family or the authorities.
3. Contacts superintendent, other principals, school leadership team, and possibly a family liaison.
4. Schedule an emergency staff meeting prior to the next school day.
5. Hires extra subs as needed.
6. Initiates phone tree and email staff to notify of event and staff meeting.
7. Other principals would decide if their staff members should be notified.

District Staff

1. Contacts outside support professionals such as social workers and counselors.
2. Contacts district support professionals such as counselors and nurses.

Superintendent

1. Helps write a statement for the media.
2. Helps write a statement for the staff to read to students and to use for parent inquiries.
3. Fact sheet for the teachers.

Actions to be Taken

Principal

1. Identify room space for counseling or a quiet room.
2. Assign a staff member to monitor room.
3. Finalize plans for 1st day emergency staff meeting.
4. Begin a list of at risk students who will need extra attention.
   a. Siblings
   b. Best friends
   c. Close Friends
   d. Team members
   e. Secondary Grief Reactions
      i. Students who have suffered recent deaths or losses
      ii. Potential suicidal students
      iii. Students who generally have trouble coping with crisis
5. Designate a Building Crisis Consultant
6. Designate a Family Liaison

Emergency Staff Meeting – First Day
**Principal**
1. State facts regarding the death as completely as possible and any information that is known about the funeral plans.
2. Allow staff expression of grief.
3. Outline plans for the day.
4. Classes and all related activities will follow normal schedule.
5. Teachers will read identical statements to their classes.
6. Describe availability of usual and extra support staff. Identify the location for individual and small group counseling. Support staff would have availability to come to classes as needed.
7. Explain that while a normal schedule is in place flexibility would need to be used to meet the needs of individual students.
8. Describe the roll of the support staff available including subs for teachers to take a break if necessary.
9. Any and all questions from the media should be redirected to the Media Liaison.
10. Hold an end of the day staff meeting to debrief, update and make further plans.

**Teachers**
1. Present facts, dispel rumors, de-glorify death.
2. Teachers should briefly express their feelings to model appropriate response to grief.
3. Encourage students to help each other.
4. Postpone test if necessary.
5. Report the names of students who seem especially upset.

**Building Crisis Consultant**
This person will be designated at the initial staff meeting and will take care of the following.
1. Address staff concerning the kinds of grief reactions that can be expected at this age level and under the circumstances of this type of death.
2. Suggests do’s and don’ts as to how staff should respond.
3. Review characteristics of high-risk students and of grief reactions that require immediate intervention.

**DURING THE FIRST DAY**
1. Support team meets with students and staff who seek help and initiate contact with those identified as being at risk.
2. Office staff operates as an information center, maintaining updated information, responding to parent inquiries.
3. Principal drafts a letter to go home to parents at the end of the 1st day stating the facts, services that the school is providing, encouraging parents to discuss the death with their children and to inform the school if children are showing excessive reactions.
4. Media Liaison meets with radio, television and newspaper.
5. Family liaison meets with the family.
6. Make available numerous brochures on grieving.
7. Allow staff to share experiences of the day – what went well, what did not.
   Suggestions for day 2.
8. Identify all students / staff of great concern. Contact parents of the students.

2ND DAY OF CLASSES

1. Extra support staff available to meet with students and staff especially those considered “At Risk”.
2. Family liaison visits family to see if they need anything and to finalize plans for students attending or participating in funeral services. Liaison will update family on school activities.
3. Principal shares updated information with staff as appropriate.
4. Teachers may begin talking about the life of the student rather than the death: Why his/her life was important, contributions to the school, how he / she will be remembered, ways to help the family of the deceased (cards, notes).
5. Students may still be confused. Students may exhibit not as much disbelief, more sorrow, more interest in funeral arrangements and memorials.

AFTER SCHOOL STAFF MEETING

1. Share the day’s experiences.
2. Counselor to report on at-risk students.
4. Report and discussion about funeral / memorial arrangements.
5. Clergy may also be present to comment.

DAY OF FUNERAL

Staff and students should be allowed to attend funeral if they so choose. Following
the funeral there should be an opportunity for staff and students to share feelings before returning to classes. It may be helpful to have counselors and clergy present. Those not attending should have a regular school day, but with extra opportunities for discussion in classes as necessary.

EVENING PARENT/ STUDENT/ COMMUNITY

The principal reports on how things are going in the school; what actions are being taken, support systems that are being offered, plans for further action. Counselor or Crisis Consultant describes the normal grieving process and offer suggestions to parents in helping their children.

CRISIS CONSULTANT

An outside expert to be present and visible at school during a crisis, helping to give the impression that the situation is under control.

1. Reviews and makes recommendations concerning the crisis plan before a crisis.
2. Attends a crisis meeting
3. Attends and presents information and suggestions at staff meetings.
4. In conjunction with the principal helps to conduct the parent / student / community meetings.

PUBLIC INFORMATION OFFICER (PIO)

Acts as the liaison between the district, the media and the public. The PIO must be aware of all incident response activities and is the only person authorized to speak to the media.

FAMILY LIAISON

The official school intermediary with the family. The family liaison would contact or preferably visit the family as soon as possible to gather detailed, accurate information about the death and any plans for the funeral and memorial services. The family liaison listens to the family, gives support and offers any help the school can provide. The family liaison may be able to provide information or answer questions about decisions the family will be faced with, funeral arrangements, student participation in the service, etc. The family liaison would remain in contact with the family throughout the crisis, but also for months afterwards. The family liaison would also maintain contact with the funeral director / clergy concerning the funeral director concerning student attendance and participation in the
ADDITIONAL NOTES

While this plan can be followed in all tragic events each situation has important differences.

1. Violent deaths (murder, accident, suicide): Cause more anger as a reaction than do non-violent deaths. In cases of murder, issues are all rekindled at each new step (investigation, arrest, and trial).

2. Suicide: Family may want to withhold information. School must respect this, while being as factual and frank with students as possible. While suicide is generally more traumatic than other types of death in school, the school response plan should be generally the same as for any other death.

3. Death by traumatic illness: the grieving process can begin well before death occurs. We do anticipate and feel the loss beforehand and feel guilty about this reaction. Friends may need extra help even before the death occurs. Anticipatory grieving does not replace grieving at the time of death that will also occur.

Comprehensive School Safety Plan

I. Purpose
This plan has been developed to comply with Senate Bill 187 (Hughes), Comprehensive School Safety Plan Act, (Ed Code 35294.1-35294.9).

II. Scope
This plan covers Egling Middle School grades 4th – 8th.

Colusa Unified School District Mission Statement
The Mission of CUSD is to provide a safe, student-centered, high quality education to ALL students

Colusa Unified School District Vision Statement
To provide, in cooperation with our families, an excellent, well-balanced education where students gain skills necessary for success in an ever-changing world.

III. Elements and Requirements of the Comprehensive School Safety Plan
The Comprehensive School Safety Plan Act requires that the Plan includes, but not necessarily limited to:

1. Assessing the current status of school crime committed on the school campus and at school functions
2. Identifying appropriate strategies and programs that will maintain a high level of school safety.
3. Address the school’s procedures for complying with the existing laws related to school safety.

Plan Approval
Each school is responsible for the development of a Comprehensive School Safety Plan which is evaluated and amended by the school Site Council or School Safety Committee annually. The Plan is then to be forwarded to the School District Board for approval.

Public Hearings
Prior to adopting the Plan, the school Site Council or the School Safety Committee is required to hold a public hearing to allow the members of the public to express an opinion about the school safety plan. All safety related materials must be kept up to date, on file and available at the Colusa Unified School District Office and at Egling Middle School office for inspection by the public. Due to small school exemptions that exist, the District may develop a district-wide school safety plan that applies to each school in the District.

It is in the intent of the regulation that schools use existing resources to develop the Plan.

The schools will use materials and services from the School Safety Partnership, pursuant to Ed Code, Section 32260.

IV. Steps in the Safe Schools Planning Process
A seven step planning process has been used to guide the school safety-planning committee in
addressing the components of the safe school model. The steps are as follows:

1. Identify your safe school planning committee members
2. Create a mission statement or vision for your school
3. Gather and analyze information about your school and its community
4. Identify your school and community areas of desired change
5. Set major goals which are located in the action plan
6. Select and implement strategies for each safe school component located in the action plan
7. Evaluate and assess progress.

V. School Safety Planning Committee
The school safety planning committee is responsible for developing the Comprehensive School Safety Plan. The committee has consulted with law enforcement in the development of this plan. The committee is comprised of the following:
- Principal or the Principal’s designee
- Three Certificated Teachers
- One Classified Employee
- Three Parents
- One Fire Department Employee
- One Special Education Teacher

VI. Current Status of School Crime Committed on School Campus and at School Related Functions
The school has used several methods of gathering information on school crime on campus and at school related functions. The resources listed were used, but not limited to:
- ARIES Reports
- Staff, Student and Parent Surveys
- School Crime Report Statistics
- Truancy Data
- Accident Reports from the School Nurse
- Vandalism Reports and Work orders to repair vandalism
- Community Juvenile Crime Statistics

The resources were used to assist the school in gathering information about the school and its community. The information has been used to identify the school and community desired areas of change. The information also assisted in developing goals and strategies. These goals have been listed in the action plan.

VII. The Action Plan consists of four components. The four components interact and affect the safety of the entire campus. In the action plan each component lists a safe school element and a planning strategy and goal.
- Component 1 – Personal Characteristics of Students and Staff
- Component 2 – The Schools Physical Environment
Colusa Unified School District
Emergency Operations Plan

- Component 3 – The Schools Social Environment
- Component 4 – The Schools Cultural Environment

The following action plan has been developed for each of four components.

Component 1

Personal Characteristics of Students and Staff

Ethnic / Cultural Diversity of Students
The backgrounds of all students will be acknowledged, respected and incorporated into all phases of the school curriculum and activities whenever possible.

Life Experiences of Students and Staff
Community support services will be utilized to provide essential needs such as food, clothing, shelter, protective services, school supplies, support services, behavior health services, and welfare checks. Tutoring services are provided in a variety of ways including Egling’s After School Program, Migrant Education, and Native American Council.

Positive community role models, people who have overcome life’s adversities, cultural role models, student and staff will be asked to share their talents with our schools.

In conjunction with our District Attorney’s Office all students are provided with internet safety training for students in grades 4th through 8th. The Colusa Probation Department facilitates our 7th and 8th grade Girls’ Circle and Boys’ Council.

Staff Expertise / Diversity
Staff members with diversified expertise will be recruited to work effectively with students.

Physical Health and Concerns
Educational programs will include nutrition, alcohol and other drug-use prevention issues. We will coordinate community health services for prevention and intervention programs for students. The Sherriff’s Department provides the Drug Awareness and Resistance Education program for our 5th grade students. The Colusa County office of Education provides the Students Working Against Tobacco for our 4th grade students.
Component 2

The Schools Physical Environment

School Location
Egling is located near high traffic areas. Egling has a fenced campus that is locked during business hours. Large School Zone signs have been installed on 10th Street and on Freemont Street. Flashing crosswalk signals have been installed on two crosswalks in front of the school. Safe Routes to School funding has been used to improve sidewalks and traffic signals near the school.

School Grounds
Egling’s campus has undergone recent upgrades including interior and exterior lighting, new asphalt playgrounds, trip hazards removed, ADA compliant sidewalks and access points and Ada compliant restrooms.

Physical conditions that lead to accidental harm will be corrected promptly. Grounds will be kept graffiti free and well maintained.

School buildings and Classrooms
Building will be well maintained and attractive, have easy access for all students and staff, be free of physical hazards, and designed to prevent criminal activities.

Internal Security Procedures
Vandalism policies are in place at Egling. The school and community will continue to collaborate on crime prevention efforts. New exterior lighting and new locking door handles have been installed.
The local police department’s vigilance will be a deterrent to vandalism and crime.

A crisis response plan identifies the standard response protocol for emergencies such as fire, earthquake, bomb threat, chemical spills, and dangerous strangers on campus or in the vicinity of the school. It also includes procedures for missing students, school closure, and student check out. There is a protocol for the death of student or a staff member. The district emergency response manual includes the incident command protocol and logistics.
Component 3

The School’s Social Environment

Leadership
The Principal and site management team will provide strong leadership, establish a positive tone, will emphasize the importance of positive staff attitudes, will model and demonstrate responsiveness, consideration, sensitivity, and respect.

School Site Management
Students, parents, certificated and classifies staff, and representatives from the community including but not limited to law enforcement, and businesses will participate in goal setting decision making at the school level whenever appropriate.

Classroom Organization and Structure
Classroom conditions will provide an orderly learning environment, enhance the learning experience and promote positive interactions among staff and students. Topics presented will include responsible citizenship, appreciation of cultural diversity, self-esteem, anger management, emotional development, social expectations, goal setting and effective communication and relationships.

Discipline
Consequences for violating behavior and academic expectations will communicated to staff, students and parents. Discipline will be fair and developmentally appropriate. The discipline process will be aimed at changes in behavior and attitude. Staff members will respond fairly and consistently to violation. Parent will be notified of violations.

Participation and Involvement
Partnerships will be purposefully facilitated between students, teachers, parents, community members, police and fire departments, health and welfare agencies, probation, for the purpose of planning, training workshops and other safe school planning and activities, whenever appropriate.
Affiliation and Bonding
Students and staff will feel physically and emotionally secure from physical and verbal attacks. All stakeholders will feel comfortable to share with unwanted events with administration.

A sense of community will be fostered so that all members of the school community can feel pride in their school and feel that they are important members of the school. A caring spirit will be fostered by all so that concern will be shown for others and all will accept ownership of the conditions and events that happen at school.

Behavioral Expectations
Behavioral expectations will be identified, clearly stated verbally and written communication will be sent to families. Adults will model respectful, positive behaviors when dealing with students and with each other.

The members of the school community will model high moral standards, send positive messages to students and expect the best effort and performance from everyone.

Academic Expectation
Clear and positive academic expectations will be communicated. Gradebooks will be kept up to date and families will have access to online grade reporting. Athletic and extracurricular activities for students will be encouraged, but a balance with academic standards will be the expectation.

Support and Recognition
Constructive, positive behavior will be given appropriate recognition. Positive behavior will be rewarded and acknowledged frequently and publically when appropriate.
In an Emergency
Say it twice. Say it twice.

Crisis Response Plan

The School Safety plan is updated annually in accordance with Senate Bill 187. The key elements of the plan include traumatic incidents, imminent danger procedure, evacuation/relocation procedure, civil defense/disorder, bomb threat/bomb emergency, earthquake, chemical spill, crime in progress, and fire/explosion. Drills are practiced monthly. The staff participates in Standard Response Protocol emergency scenarios in order to maintain decision-making and communication procedures for a given emergency.

The signal for a fire drill will consist of a verbal announcement, strobe lights and horns lasting for several minutes and continuing until system is shut off. Fire drills will be conducted monthly.

Exit Routines:
Please follow the exit routes shown on the attached map of the campus. (Make sure map is posted by exit door).
Procedure:
A. All pupils shall stop work immediately and prepare to evacuate the room.
B. All pupils should not take any wraps, books, flags or personal belongings with them during fire drill.
C. All school personal and visitors must leave the building, regardless of their activities.
D. There shall be no talking during the drill.
E. There shall be no running or pushing allowed during the drill, but move quickly.

During Lunch: Teachers go to football field with roll books to assemble their class (7th-8th Homeroom). All students are led to the football field to meet with their teachers.

Passing Period and Recess: During 7th-8th passing period and recess students assemble on the football field to meet with Homeroom teachers.

Order students to drop, hold, and cover at the first sign of a quake. Do not wait for a bell.

EVACUATE:
A. After the initial shock, evacuate the building according to Fire Drill Procedure.
B. There will be no bell.
C. If an aftershock should occur during the evacuation process, order students to drop and cover.
D. Teachers make sure to take roll and keys.
E. Head Custodian turns off power and gas.

Take your class directly to the assembly area, using the safest path available. Avoid overhangs, power lines, and anything that may fall on your students during transit.

ASSEMBLY FIELD:
Assemble your class as a unit (refer to the map). Do not release any students. Take roll immediately. Send a list of any missing or injured students to the Goal Posts; include possible locations of missing or injured students.

ASSEMBLY:
If an earthquake should occur during an assembly, order your students to drop and cover. After the initial shock, escort students outside using the nearest functional exit. Direct them to assemble on the field. Remind students not to leave school. All teachers should proceed to their assigned locations. Follow steps under “Assembly Field” and “Release of Students.”

LUNCH:
If an earthquake should occur during lunch, the duty teachers must order the students to duck and cover. The duty teachers must instruct the student body to report to their teachers (4-6) or Homeroom (7-8) on the assembly field (Football Field). All teachers must report to the assembly field. All teachers must report to the assembly field and follow steps under “Assembly Field” and “Release of Students.”

PASSING PERIOD:
If an earthquake should occur during a passing period, students and faculty should duck and cover. After the initial shock, students and faculty must proceed to the assembly field. Students must locate and report to their teacher (4-6) or Homeroom.

RELEASE OF STUDENTS:
Students will be released to parents at student check-out area.

DROP DRILL:
Each teacher is responsible for the safety of their students. Drop drills should be conducted in each class. Instruct the students to duck under their desk, assume a position on their knees using one arm and hand to protect the neck/spinal area and the other arm and hand to secure the desk’s position.

*Roll books should be taken to the assembly.

# BOMB THREAT

**STANDARD RESPONSE PROTOCOL (SRP)**

**SIGNAL:** EVACUATE

Procedures for bomb threat are as follows:

If a bomb threat is received by phone:

- Remain calm. Keep the caller on the line for as long as possible.
- **DO NOT HANG UP, even if the caller does.**
- Listen carefully. Be polite and show interest.
- Try to keep the caller talking to learn more information.

**Ask the caller:**

Where is the bomb located? ________________________________

When will it go off? ________________________________
What does it look like? __________________________________________

What kind of bomb is it? ______________________________________

What will make it explode? _____________________________________

Did you place the bomb yourself? ________________________________

Why? __________________________________________________________

What is your name? _____________________________________________

Estimate the caller's age:

Is the voice familiar? __________________________________________

If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself ON A DIFFERENT PHONE LINE.

If your phone has a display, copy the number and/or letters on the window display.

Write down as much detail as you can remember. Try to get exact words. If you have a recording device available, use it. Complete the Bomb Threat Checklist below immediately. Circle all that apply:

Crisis Response Plan regarding the Death of a Staff Member or Student

In the case of the death of a student or member of the staff this plan will be implemented at the discretion of the Principal and Superintendent. The plan could also be implemented or modified in the case that affects student/staff performance such as a natural disaster, national crisis, assassination or personal tragedy such as suicide.

**Goals**

**Reduce Fear**  Fear resides in the unknown, especially in cases of murder or suicide. Provide complete and accurate details concerning the death. This helps to elevate rumors.

**Facilitate Grieving**  Grief is a necessary, normal response to a loss. It is part of the healing process. Allow and encourage expressions of grief in many forms.

**Promote Education**  Help students learn ways of grieving. Teachers can model this and can teach students how to help each other in times of crisis.

**Initial Actions to be Taken**

**Principal**

1. Receives initial report.
2. Verifies by calling family or the authorities.
3. Contacts superintendent, other principals, school leadership team, and possibly a family liaison.
4. Schedule an emergency staff meeting prior to the next school day.
5. Hires extra subs as needed.
6. Initiate phone tree to and email staff to notify of event and staff meeting.
7. Other principals would decide if their staff members should be notified.
District Staff
1. Contacts outside support professionals such as social workers and counselors.
2. Contacts district support professionals such as counselors and nurses.

Superintendent
1. Helps write a statement for the media.
2. Helps write a statement for the staff to read to students and to use for parent inquiries.
3. Fact sheet for the teachers.

Actions to be Taken
Principal
1. Identify room space for counseling or a quiet room.
2. Assign a staff member to monitor room.
3. Finalize plans for 1st day emergency staff meeting.
4. Begin a list of at risk students who will need extra attention.
   a. Siblings
   b. Best friends
   c. Close Friends
   d. Team members
   e. Secondary Grief Reactions
      i. Students who have suffered recent deaths or losses
      ii. Potential suicidal students
      iii. Students who generally have trouble coping with crisis
5. Designate a Building Crisis Consultant
6. Designate a Family Liaison

Emergency Staff Meeting – First Day
Principal
1. State facts regarding the death as completely as possible and any information that is known about the funeral plans.
2. Allow staff expression of grief.
3. Outline plans for the day.
4. Classes and all related activities will follow normal schedule. It may be necessary to extend homeroom to process with students.
5. During homeroom principal will read a statement over the PA and/or teachers will read identical statements to their homeroom classes.
6. Describe availability of usual and extra support staff. Identify the location for individual and small group counseling. Support staff would have availability to come to classes as needed.
7. Explain that while a normal schedule is in place flexibility would need to be used to meet the needs of individual students.

8. Describe the roll of the support staff available including subs for teachers to take a break if necessary.

9. Any and all questions from the media should be redirected to the Media Liaison.

10. Hold an end of the day staff meeting to debrief, update and make further plans.

**Teachers**

1. Present facts, dispel rumors, de-glorify death.

2. Teachers should briefly express their feelings to model appropriate response to grief.

3. Encourage students to help each other.

4. Postpone test if necessary.

5. Report the names of students who seem especially upset.

**Building Crisis Consultant**

This person will be designated at the initials meeting and will take care of the following.

1. Address staff concerning the kinds of grief reactions that can be expected at this age level and under the circumstances of this type of death.

2. Suggests do’s and don’ts as to how staff should respond.

3. Review characteristics of high-risk students and of grief reactions that require immediate intervention.

**DURING THE FIRST DAY**

1. Support team meets with students and staff who seek help and initiate contact with those identified as being at risk.

2. Office staff operates as an information center, maintaining updated information, responding to parent inquiries.

3. Principal drafts a letter to go home to parents at the end of the 1st day stating the facts, services that the school is providing, encouraging parents to discuss the death with their children and to inform the school if children are showing excessive reactions.

4. Media Liaison meets with radio, television and newspaper.

5. Family liaison meets with the family.

6. Make available numerous brochures on grieving.

7. Allow staff to share experiences of the day – what went well, what did not. Suggestions for day 2.
8. Identify all students / staff of great concern. Contact parents of the students.

2ND DAY OF CLASSES

1. Extra support staff available to meet with students and staff especially those considered “At Risk”.
2. Family liaison visits family to see if they need anything and to finalize plans for students attending or participating in funeral services. Liaison will update family on school activities.
3. Principal shares updated information with staff as appropriate.
4. Teachers may begin talking about the life of the student rather than the death: Why his/her life was important, contributions to the school, how he / she will be remembered, ways to help the family of the deceased (cards, notes).
5. Students may still be confused. Students may exhibit not as much disbelief, more sorrow, more interest in funeral arrangements and memorials.

AFTER SCHOOL STAFF MEETING

1. Share the day’s experiences.
2. Counselor to report on at-risk students.
4. Report and discussion about funeral / memorial arrangements.
5. Clergy may also be present to comment.

DAY OF FUNERAL

Staff and students should be allowed to attend funeral if they so choose. Following the funeral there should be an opportunity for staff and students to share feeling before returning to classes. It may be helpful to have counselors and clergy present. Those not attending should have a regular school day, but with extra opportunities for discussion in classes as necessary.

EVENING PARENT/ STUDENT/ COMMUNITY

The principal reports on how things are going in the school; what actions are being taken, support systems that are being offered, plans for further action. Counselor or Crisis Consultant describes the normal grieving process and offer suggestions to parents in helping their children.
CRISIS CONSULTANT
An outside expert to be present and visible at school during a crisis, helping to give the impression of the situation is under control.
1. Reviews and makes recommendations concerning the crisis plan before a crisis.
2. Attends a crisis meeting
3. Attends and presents information and suggestions at staff meetings.
4. In conjunction with the principal helps to conduct the parent / student / community meetings.

PUBLIC INFORMATION OFFICER (PIO)
Acts as the liaison between the district, the media and the public. The PIO must be aware of all incident response activities and is the only person authorized to speak to the media.

FAMILY LIAISON
The official school intermediary with the family. The family liaison would contact or preferably visit the family as soon as possible to gather detailed, accurate information about the death and any plans for the funeral and memorial services. The family liaison listens to the family, gives support and offers any help the school can provide. The family liaison may be able to provide information or answer questions about decisions the family will be faced with, funeral arrangements, student participation in the service, etc. The family liaison would remain in contact with the family throughout the crisis, but also for months afterwards. The family liaison would also maintain contact with the funeral director / clergy concerning the funeral director concerning student attendance and participation in the services.

ADDITIONAL NOTES
While this plan can be followed in all tragic events each situation has important differences.
1. Violent deaths (murder, accident, suicide): Cause more anger as a reaction than do non-violent deaths. In cases of murder, issues are all rekindled at each new step (investigation, arrest, and trail).
2. Suicide: Family may want to withhold information. School must respect this, while being as factual and frank with students as possible. While suicide is
generally more traumatic than other types of death in school, the school response plan should be generally the same as for any other death.

3. Death by traumatic illness: the grieving process can begin well before death occurs. We do anticipate and feel the loss beforehand and feel guilty about this reaction. Friends may need extra help even before the death occurs. Anticipatory grieving does not replace grieving at the time of death that will also occur.

COMPREHENSIVE SCHOOL SAFETY PLAN

Colusa High School
901 Colus Avenue
Colusa, CA 95932
530.458.2156
Comprehensive School Safety Safety Plan

I. Purpose
This plan has been developed to comply with Senate Bill 187 (Hughes), Comprehensive School Safety Plan Act, (Ed Code 35294.1-35294.9).

II. Scope
This plan covers Colusa High School grades 9th – 12th.

Colusa Unified School District Mission Statement
The Mission of CUSD is to provide a safe, student-centered, high quality education to ALL students.

Colusa Unified School District Vision Statement
To provide, in cooperation with our families, an excellent, well-balanced education where students gain skills necessary for success in an ever-changing world.
III. Elements and Requirements of the Comprehensive School Safety Plan

The Comprehensive School Safety Plan Act requires that the Plan includes, but not necessarily limited to:

1. Assessing the current status of school crime committed on the school campus and at school functions
2. Identifying appropriate strategies and programs that will maintain a high level of school safety.
3. Address the school’s procedures for complying with the existing laws related to school safety.

Plan Approval

Each school is responsible for the development of a Comprehensive School Safety Plan which is evaluated and amended by the School Site Council or School Safety Committee annually. The Plan is then to be forwarded to the School District Board for approval.

Public Hearings

Prior to adopting the Plan, the school Site Council or the School Safety Committee is required to hold a public hearing to allow the members of the public to express an opinion about the school safety plan. All safety related materials must be kept up to date, on file and available at the Colusa Unified School District Office and at Colusa High School office for inspection by the public. Due to small school exemptions that exist, the District may develop a district-wide school safety plan that applies to each school in the District.

It is in the intent of the regulation that schools use existing resources to develop the Plan. The schools will use materials and services from the School Safety Partnership, pursuant to Ed Code, Section 32260.

IV. Steps in the Safe Schools Planning Process

A seven step planning process has been used to guide the school safety-planning committee in addressing the components of the safe school model. The steps are as follows:

1. Identify your safe school planning committee members
2. Create a mission statement or vision for your school
3. Gather and analyze information about your school and its community
4. Identify your school and community areas of desired change
5. Set major goals which are located in the action plan
6. Select and implement strategies for each safe school component located in the action plan
7. Evaluate and assess progress.

V. School Safety Planning Committee

The school safety planning committee is responsible for developing the Comprehensive School Safety Plan. The committee has consulted with law enforcement in the development of this plan. The committee is comprised of the following:

Principal or the Principal’s designee
Three Certificated Teachers
VI. Current Status of School Crime Committed on School Campus and at School Related Functions

The school has used several methods of gathering information on school crime on campus and at school related functions. The resources listed were used, but not limited to:

- Student Information System Reports
- Staff, Student and Parent Surveys
- School Crime Report Statistics
- Truancy Data
- Accident Reports from the School Nurse
- Vandalism Reports and Work orders to repair vandalism
- Community Juvenile Crime Statistics

The resources were used to assist the school in gathering information about the school and its community. The information has been used to identify the school and community desired areas of change. The information also assisted in developing goals and strategies. These goals have been listed in the action plan.

VII. The Action Plan consists of four components. The four components interact and affect the safety of the entire campus.

VIII. In the action plan each component lists a safe school element and a planning strategy and goal.

- Component 1 – Personal Characteristics of Students and Staff
- Component 2 – The Schools Physical Environment
- Component 3 – The Schools Social Environment
- Component 4 – The Schools Cultural Environment

The following action plan has been developed for each of four components.

Component 1

Personal Characteristics of Students and Staff

Ethnic / Cultural Diversity of Students

The backgrounds of all students will be acknowledged, respected and incorporated into all phases of the school curriculum and activities whenever possible.

Life Experiences of Students and Staff
Community support services will be utilized to provide essential needs such as food, clothing, shelter, protective services, school supplies, support services, behavior health services, and welfare checks. Tutoring services are provided in a variety of ways including before and after school and through Migrant Education, and Native American Council.

Positive community role models, people who have overcome life’s adversities, cultural role models, student and staff will be asked to share their talents with our schools.

In conjunction with our District Attorney's Office all students are provided with internet safety training for students in grades 9\textsuperscript{th} through 12\textsuperscript{th}. The Colusa Probation Department facilitates our Girls' Circle and Boys' Council.

**Staff Expertise / Diversity**
Staff members with diversified expertise will be recruited to work effectively with students.

**Physical Health and Concerns**
Educational programs will include nutrition, alcohol and other drug-use prevention issues. We will coordinate community health services for prevention and intervention programs for students. The Colusa County office of Education provides the Students Working Against Tobacco for all of our students.

**Component 2**

**The School’s Physical Environment**

**School Location**
Colusa High School is located on Colus Avenue. CHS has a very open campus that has multiple openings to the school. Efforts have taken place in the past to fence some aspects of the school but ultimately the cost and practicality of this endeavor has proven to be too difficult.

**School Grounds**
Colusa High School’s campus has undergone recent upgrades including interior and
exterior lighting, new asphalt, trip hazards removed, ADA compliant sidewalks and access points and ADA compliant restrooms.

Physical conditions that lead to accidental harm will be corrected promptly. Grounds will be kept graffiti free and well maintained.

**School buildings and Classrooms**

Building will be well maintained and attractive, have easy access for all students and staff, be free of physical hazards, and designed to prevent criminal activities.

**Internal Security Procedures**

Vandalism policies are in place at CHS. The school and community will continue to collaborate on crime prevention efforts. New exterior lighting and new locking door handles have been installed.

The local police department’s vigilance will be a deterrent to vandalism and crime.

A crisis response plan identifies the standard response protocol for emergencies such as fire, earthquake, bomb threat, chemical spills, and dangerous strangers on campus or in the vicinity of the school. It also includes procedures for missing students, school closure, and student check out. There is a protocol for the death of student or a staff member. The district emergency response manual includes the incident command protocol and logistics.

**Component 3**

**The School’s Social Environment**

**Leadership**

The Principal, Assistant Principal and site management team will provide strong leadership, establish a positive tone, will emphasize the importance of positive staff attitudes, will model and demonstrate responsiveness, consideration, sensitivity, and respect.

**School Site Management**

Students, parents, certificated and classified staff, and representatives from the community including but not limited to law enforcement, and businesses will participate in goal setting decision making at the school level whenever
Classroom Organization and Structure
Classroom conditions will provide an orderly learning environment, enhance the learning experience and promote positive interactions among staff and students. Topics presented will include responsible citizenship, appreciation of cultural diversity, self-esteem, anger management, emotional development, social expectations, goal setting and effective communication and relationships.

Discipline
Consequences for violating behavior and academic expectations will communicated to staff, students and parents. Discipline will be fair and developmentally appropriate. The discipline process will be aimed at changes in behavior and attitude. Staff members will respond fairly and consistently to violations. Parents will be notified of violations.

Participation and Involvement
Partnerships will be purposefully facilitated between students, teachers, parents, community members, police and fire departments, health and welfare agencies, probation, for the purpose of planning, training workshops and other safe school planning and activities, whenever appropriate.

Component 4
The School’s Culture

Affiliation and Bonding
Students and staff will feel physically and emotionally secure from physical and verbal attacks. All stake holders will feel comfortable to share with unwanted events with administration.

A sense of community will be fostered so that all members of the school community can feel pride in their school and feel that they are important members of the school. A caring spirit will be fostered by all so that concern will be shown for others and all will accept ownership of the conditions and events that happen at school.
Behavioral Expectations

Behavioral expectations will be identified, clearly stated verbally and written communication will be sent to families. Adults will model respectful, positive behaviors when dealing with students and with each other.

The members of the school community will model high moral standards, send positive messages to students and expect the best effort and performance from everyone.

Academic Expectation

Clear and positive academic expectations will be communicated. Gradebooks will be kept up to date and families will have access to online grade reporting. Athletic and extracurricular activities for students will be encouraged, but a balance with academic standards will be the expectation.

Support and Recognition

Constructive, positive behavior will be given appropriate recognition. Positive behavior will be rewarded and acknowledged frequently and publically when appropriate.
Crisis Response Plan

The School Safety plan is updated annually in accordance with Senate Bill 187. The key elements of the plan include traumatic incidents, imminent danger procedure, evacuation/relocation procedure, civil defense/disorder, bomb threat/bomb emergency, earthquake, chemical spill, crime in progress, and fire/explosion. Drills are practiced monthly. The staff participates in Standard Response Protocol emergency scenarios in order to maintain decision-making and communication procedures for a given emergency.

Order students to drop, hold, and cover at the first sign of a quake. Do not wait for a bell.

EVACUATE:
A. After the initial shock, evacuate the building according to Fire Drill Procedure.
B. There will be no bell.
C. If an aftershock should occur during the evacuation process, order students to drop and cover.
D. Teachers make sure to take roll and keys.
E. Head Custodian turns off power and gas.

Take your class directly to the assembly area, using the safest path available. Avoid overhangs, power lines, and anything that may fall on your students during transit.

Football FIELD:
Assemble your class as a unit (refer to the map). Do not release any students. Take roll immediately. Send a list of any missing or injured students to the Goal Posts; include possible locations of missing or injured students.

ASSEMBLY:
If an earthquake should occur during an assembly, order your students to drop and cover. After the initial shock, escort students outside using the nearest functional exit. Direct them to assemble on the football field. Remind students not to leave school. All teachers should proceed to their assigned locations. Follow steps under “Football Field” and “Release of Students.”

LUNCH:
If an earthquake should occur during lunch, administrators will order the students to duck and cover. Admin will instruct the student body to report to their 5th period teachers on the football field. All teachers must report to the football field and follow steps under “Football Field” and “Release of Students.”

PASSING PERIOD:
If an earthquake should occur during a passing period, students and faculty should duck and cover. After the initial shock, students and faculty must proceed to the football field. Students must locate and report to their teacher.

RELEASE OF STUDENTS:
Students will be released to parents at student check-out area.

DROP DRILL:
Each teacher is responsible for the safety of their students. Drop drills should be conducted in each class. Instruct the students to duck under their desk, assume a position on their knees using one arm and hand to protect the neck/spinal area and the other arm and hand to secure the desk’s position.

*Roll books should be taken to the assembly.

STANDARD RESPONSE PROTOCOL (SRP)
SIGNAL: EVACUATE

Procedures for bomb threat are as follows:

If a bomb threat is received by phone:

- Remain calm. Keep the caller on the line for as long as possible.
- DO NOT HANG UP, even if the caller does.
- Listen carefully. Be polite and show interest.
- Try to keep the caller talking to learn more information.

Ask the caller:

Where is the bomb located? ________________________________

When will it go off? ________________________________

What does it look like? ________________________________

What kind of bomb is it? ________________________________
What will make it explode? ________________________________

Did you place the bomb yourself? __________________________

Why? __________________________________________________

What is your name? ________________________________________

Estimate the caller's age:

Is the voice familiar? ________________________________

If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself **ON A DIFFERENT PHONE LINE**.

If your phone has a display, copy the number and/or letters on the window display.

Write down as much detail as you can remember. Try to get exact words. If you have a recording device available, use it. Complete the Bomb Threat Checklist below immediately. Circle all that apply:

Crisis Response Plan regarding the Death of a Staff Member or Student

In the case of the death of a student or member of the staff this plan will be implemented at the discretion of the Principal and Superintendent. The plan could also be implemented or modified in the case that effect student/staff performance such as a natural disaster, national crisis, assassination or personal tragedy such as suicide.

**Goals**

Reduce Fear Fear resides in the unknown, especially in cases of murder or suicide. Provide complete and accurate details concerning the death. This helps to elevate rumors.

Facilitate Grieving Grief is a necessary, normal response to a loss. It is part of the healing process. Allow and encourage expressions of grief in many forms.

Promote Education Help students learn ways of grieving. Teachers can model this and can teach students how to help each other in times of crisis.

**Initial Actions to be Taken**

**Principal**

1. Receives initial report.
2. Verifies by calling family or the authorities.
3. Contacts superintendent, other principals, school leadership team, and possibly a family liaison.
4. Schedule an emergency staff meeting prior to the next school day.
5. Hires extra subs as needed.
6. Initiate phone tree to and email staff to notify of event and staff meeting.
7. Other principals would decide if their staff members should be notified.

**District Staff**

1. Contacts outside support professionals such as social workers and counselors.
2. Contacts district support professionals such as counselors and nurses.

**Superintendent**

1. Helps write a statement for the media.
2. Helps write a statement for the staff to read to students and to use for parent inquiries.
3. Fact sheet for the teachers.

**Actions to be Taken**

**Principal**

1. Identify room space for counseling or a quiet room.
2. Assign a staff member to monitor room.
3. Finalize plans for 1st day emergency staff meeting.
4. Begin a list of at risk students who will need extra attention.
   a. Siblings
   b. Best friends
   c. Close Friends
   d. Team members
   e. Secondary Grief Reactions
      i. Students who have suffered recent deaths or losses
      ii. Potential suicidal students
      iii. Students who generally have trouble coping with crisis
5. Designate a Building Crisis Consultant
6. Designate a Family Liaison

**Emergency Staff Meeting – First Day**

**Principal**

1. State facts regarding the death as completely as possible and any information that is known about the funeral plans.
2. Allow staff expression of grief.
3. Outline plans for the day.
4. Classes and all related activities will follow normal schedule. It may be necessary to extend homeroom to process with students.
5. During 1st period, principal will read a statement over the PA and/or teachers will read identical statements to their classes.
6. Describe availability of usual and extra support staff. Identify the location for individual and small group counseling. Support staff would have availability to come to classes as needed.
7. Explain that while a normal schedule is in place flexibility would need to be used to meet the needs of individual students.
8. Describe the roll of the support staff available including subs for teachers to take a break if necessary.
9. Any and all questions from the media should be redirected to the Media Liaison.
10. Hold an end of the day staff meeting to debrief, update and make further plans.
Teachers
1. Present facts, dispel rumors, de-glorify death.
2. Teachers should briefly express their feelings to model appropriate response to grief.
3. Encourage students to help each other.
4. Postpone test if necessary.
5. Report the names of students who seem especially upset.

Building Crisis Consultant
This person will be designated at the initials meeting and will take care of the following.
1. Address staff concerning the kinds of grief reactions that can be expected at this age level and under the circumstances of this type of death.
2. Suggests do’s and don’ts as to how staff should respond.
3. Review characteristics of high-risk students and of grief reactions that require immediate intervention.

DURING THE FIRST DAY
1. Support team meets with students and staff who seek help and initiate contact with those identified as being at risk.
2. Office staff operates as an information center, maintaining updated information, responding to parent inquiries.
3. Principal drafts a letter to go home to parents at the end of the 1st day stating the facts, services that the school is providing, encouraging parents to discuss the death with their children and to inform the school if children are showing excessive reactions.
4. Media Liaison meets with radio, television and newspaper.
5. Family liaison meets with the family.
6. Make available numerous brochures on grieving.
7. Allow staff to share experiences of the day – what went well, what did not. Suggestions for day 2.
8. Identify all students / staff of great concern. Contact parents of the students.

2ND DAY OF CLASSES
1. Extra support staff available to meet with students and staff especially those considered “At Risk.”
2. Family liaison visits family to see if they need anything and to finalize plans for students attending or participating in funeral services. Liaison will update family on school activities.
3. Principal shares updated information with staff as appropriate.
4. Teachers may begin talking about the life of the student rather than the death: Why his/her life was important, contributions to the school, how he / she will be remembered, ways to help the family of the deceased (cards, notes).
5. Students may still be confused. Students may exhibit not as much disbelief, more sorrow, more interest in funeral arrangements and memorials.

**AFTER SCHOOL STAFF MEETING**

1. Share the day’s experiences.
2. Counselor to report on at-risk students.
4. Report and discussion about funeral / memorial arrangements.
5. Clergy may also be present to comment.

**DAY OF FUNERAL**

Staff and students should be allowed to attend funeral if they so choose. Following the funeral there should be an opportunity for staff and students to share feeling before returning to classes. It may be helpful to have counselors and clergy present. Those not attending should have a regular school day, but with extra opportunities for discussion in classes as necessary.

**EVENING PARENT/ STUDENT/ COMMUNITY**

The principal reports on how things are going in the school; what actions are being taken, support systems that are being offered, plans for further action. Counselor or Crisis Consultant describes the normal grieving process and offer suggestions to parents in helping their children.

**CRISIS CONSULTANT**

An outside expert to be present and visible at school during a crisis, helping to give the impression of the situation is under control.

1. Reviews and makes recommendations concerning the crisis plan before a crisis.
2. Attends a crisis meeting
3. Attends and presents information and suggestions at staff meetings.
4. In conjunction with the principal helps to conduct the parent / student / community meetings.

PUBLIC INFORMATION OFFICER (PIO)
Acts as the liaison between the district, the media and the public. The PIO must be aware of all incident response activities and is the only person authorized to speak to the media.

FAMILY LIAISON
The official school intermediary with the family. The family liaison would contact or preferably visit the family as soon as possible to gather detailed, accurate information about the death and any plans for the funeral and memorial services. The family liaison listens to the family, gives support and offers any help the school can provide. The family liaison may be able to provide information or answer questions about decisions the family will be faced with, funeral arrangements, student participation in the service, etc. The family liaison would remain in contact with the family throughout the crisis, but also for months afterwards. The family liaison would also maintain contact with the funeral director / clergy concerning the funeral director concerning student attendance and participation in the services.

ADDITIONAL NOTES
While this plan can be followed in all tragic events each situation has important differences.

1. Violent deaths (murder, accident, suicide): Cause more anger as a reaction than do non-violent deaths. In cases of murder, issues are all rekindled at each new step (investigation, arrest, and trial).
2. Suicide: Family may want to withhold information. School must respect this, while being as factual and frank with students as possible. While suicide is generally more traumatic than other types of death in school, the school response plan should be generally the same as for any other death.
3. Death by traumatic illness: the grieving process can begin well before death occurs. We do anticipate and feel the loss beforehand and feel guilty about this reaction. Friends may need extra help even before the death occurs.
Anticipatory grieving does not replace grieving at the time of death that will also occur.

BOMB THREAT

Procedures for bomb threat are as follows:

1. Upon receipt of a bomb threat, the person answering phone should gather as much information as possible.

If a bomb threat is received by phone:
   - Remain calm. Keep the caller on the line for as long as possible.
   - **DO NOT HANG UP, even if the caller does.**
   - Listen carefully. Be polite and show interest.
   - Try to keep the caller talking to learn more information.

**Ask the caller:**

Where is the bomb located? ________________________________

When will it go off? ________________________________

What does it look like? ___________________________________

What kind of bomb is it? ________________________________

What will make it explode? ________________________________

Did you place the bomb yourself? __________________________

Why? __________________________________________________

What is your name? _______________________________________

Estimate the caller’s age:

Is the voice familiar? ________________________________

If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself **ON A DIFFERENT PHONE LINE.**

**FIRE PROCEDURES**

**SIGNAL:**
The signal for a fire or fire drill will consist of a series of **short bells** lasting duration of the drill or event, if safe to do so, runners will also be sent to announce “Fire Inside; Evacuate to South Parking lot.”
1. All School personnel and visitors must leave the building immediately.
2. Students should stop talking and working and evacuate the room.
3. Students are to follow the teacher out of the building in an orderly fashion.
4. Teacher is to take the roll book and immediately take roll at designated area.
5. A single runner should bring the names of missing students to the Administration in front of the school.
6. Teacher is to remain with the class for the duration of the event.
7. Students are not to leave the evacuation site for any reason.
8. Students and teacher may return to class after all clear bell sounds (one long bell ring).

**INTRUDER ON CAMPUS**

If safe to do so, runners will be sent to announce “Lockdown: Locks, Lights, Out of Sight!”. Staff should also use their discretion in determining the need to lockdown the District Office.

- Staff are to lock doors.
- Turn off the light.
- Pull curtains and/or shades if possible to do so without attracting attention.
- Students and staff are to get on the floor out of sight and sit still (motion will attract attention).
- Staff should make a list of everyone in the room. Make note of anyone who is typically present at the time, but not in the room.
- If possible to do so, record events, sounds, and the times they occurred.
- Everyone should remain quiet and still. Have everyone check that cell phones are silenced. Do not use cell phones – a flood of cell calls could overload the local system and interrupt communication between District staff and emergency responders. Students may text parents as long as the process is silent and the light from their phone would not alert an intruder.
- One adult should call 911.
- Drill/event will be concluded when an Administrator or a Police officer enters the room. Do not open the door to anyone.

Prepare to spend hours in lockdown. Although the events usually end quickly, the process of evacuating the site may take some time.

**FOLLOW INSTRUCTIONS** of the police officers aiding evacuation.

**Staff should use their discretion as to the best course of action in an emergency.**
Consider barricading doors using classroom / office furniture.
Consider evacuation through windows should a violent intruder be attempting to gain entry.
Consider “Active Resistance” (fighting back) if necessary.

Refer to the Standard Reunification Protocol for instructions on returning students to the care of their parents.

MISSING STUDENT/ABDUCTION

1. When a student is reported missing from school, the person receiving the call must notify the Principal or Assistant Principal.
2. Document the time of the report, who was making the report, and take a description of what the student was wearing.
3. Check the campus, restrooms, library and gym to be sure the student is not on campus.
4. The Principal or Assistant Principal will drive around the school area and check local businesses.
5. The Admin. Assist. will call the parents and the police will be notified.
6. The Administrative Assistant will fill out the form for “missing student.”

PARENTAL EMERGENCY INFORMATION

If school is canceled in the morning before school starts or bus routes run, parents and staff should:

A. Tune your radio to one of the following stations for information:
   i. KPPL 107.5 (530) 899-3600
   ii. KALF 95.7 (530) 899-3600
   iii. KRCX 99.9 (530) 858-1600

B. Check the district home page:
   www.colusa.k12.ca.us

C. Call your school
   i. Burchfield Primary School – 458-5853
   ii. Egling Middle School – 458-7631
iii. Colusa High School – 458-2156
iv. Colusa Alternative High School – 458-2232
v. Colusa Unified School District – 458-7791

If my student has already left for school, what should I do?
   A. Come to the school and pick up your student.
   B. Call the school

In the event of a violent incident at one of the school sites, parents should tune to the above radio stations, or check the district web site to obtain information about where they may pick up their students. The district may also utilize an automated calling system or the reverse 911 system to get information to parents after an incident. In most cases following a criminal incident, the students will be bused off site and reunified with parents in controlled atmosphere away from the crime scene.

Refer to the Standard Reunification Protocol for information on how the district will go about returning students to the care of their parents.

**SCHOOL CLOSURE/FLOOD EVACUATION PLAN**

In the event that the schools are closed at any point due to safety or security reasons the following procedures are to be followed:

1. Runners will alert staff explaining the circumstances.
2. Students are to remain with teacher/class at that time.
3. There will be one check-out station set up at the south entrance to the building. An Administrator or teacher will oversee the process. Parents will be called and dismissal information logged before any student is released. No staff may leave until all students are returned to the care of their parents.

Student information is to be logged on a “Student Release Log Sheet” and used as the official attendance record. When approval has been obtained, Administrator will dismiss each student. Students whose parents cannot be reached are to remain under supervision of teacher/administrators. Repeated attempts will be made until parents are reached and/or permission given to leave school.

- *In the event of immediate threat of flooding, staff and students are to evacuate to the second floor of the District Office Building.*

Colusa County Fairgrounds
CUSD Emergency Parent / Student
Reunification Procedure

If the need for a mass reunification arises:

1. CUSD staff calls fairgrounds CEO and informs them. Designated CUSD staff member acts as liaison between Fairgrounds staff and Incident Commander.
2. Fairgrounds staff shut and lock all gates except designated vehicle entry / exit points. Any parents who have arrived in advance should be directed to wait in parking areas.
3. Fairgrounds staff unlock doors to designated buildings.
4. CUSD personnel arrive at fairgrounds with pre-made reunification kits, tents, chairs, tables, etc. and set up.
5. CUSD personnel staff the designated vehicle entry and exit points as well as parent contact tables. They will also control parent access and direct parent foot traffic.
6. Official announcement released to public directing parents to Fairgrounds for reunification. (PD, SO, CHP direct traffic flow and assist with site security as designated by Incident Commander - direct parent traffic into designated parking areas, help maintain order at designated points.)
7. CUSD staff implement Standard Reunification Method - students safely returned to parent/guardian custody, and families’ needs met.
8. When reunification is complete, actions operate in reverse to return Fairgrounds to regular operations.
